LegalRecovery.in · Strategy document · 31 October 2026

SEO & AI-Search Master Plan for Every Recoverable Rupee

An exhaustive topic, keyword and URL plan covering every dispute the platform can resolve through a legal notice: e-commerce refunds, salary & FnF, loans, cheques, MSME invoices, rent, builders, banks, insurance, education, travel and more. Built for Google, AI Overviews / AI Mode, ChatGPT, Perplexity and Gemini.

168
new unique URLs (deduplicated against all 284 existing ones)

15
recovery verticals mapped

22
cannibalization clusters (130 URLs) to consolidate

3,728
real GSC queries + 1,346 Google-India autocomplete suggestions mined

For developers: give the Appendix I prompt to Antigravity with just the URL. It reads the master tables (F1/F2), archetypes (G) and specs (H) from this document.

Data sources: Google Search Console API (sc-domain:legalrecovery.in, May 26 – Oct 29, 2026) · Vercel Web Analytics · live sitemap (3,319 URLs) · Google India autocomplete · web research on 2026 search and legal changes · git history.
Legend: **GSC** = we already earn impressions for this query · **AC** = confirmed by Google India autocomplete · **HI** = Hindi/Hinglish · **†** = verify against the primary source (gazette, circular, judgment) before publishing.

F2. Appendix F2 — Master URL table: build fields
G. Appendix G — Layout archetypes (DOM blueprints)
H. Appendix H — Tool & template specifications
I. Appendix I — Antigravity / Gemini page-builder prompt

1. Executive summary

LegalRecovery.in grew from zero to about **1,300 Google clicks every 28 days** in five months. The growth came from long-form "how to recover X" articles. Traffic has plateaued since mid-September. Three things hold it back: (1) **own-goal cannibalization**, with 6–12 pages competing for each head term, which is why "send legal notice online" sits at position 24 and "legal notice for recovery of money" at position 73; (2) **coverage gaps** in fast-growing 2026 demand (the Code on Wages 2-day FnF rule, the RBI 2027 fraud-liability framework, the DGCA refund CAR, the MSME ODR portal, e-Jagriti); and (3) **low AI-search readiness** (an empty llms.txt, no fact tables, an inconsistent author entity, no original data).

> **The plan in one paragraph.** First remove the risks and merge duplicates. Then build one authoritative hub per dispute and per brand, surrounded by four asset types competitors don't have: **statute explainers** (/law/), **calculators** (/tools/), **downloadable letter templates** (/templates/) and **original outcome data** (/reports/). Every page is answer-first, has a lawyer reviewer and cites real case law, so it can rank in Google and be quoted by AI Overviews, ChatGPT and Perplexity. Each page funnels the reader to the ₹-priced legal-notice product.

Top 12 decisions

#	Decision	Why	When
1	Noindex / remove the 3,036 templated city & locality pages (keep ≤20 with unique content)	100% template similarity; 91% of sitemap; 3.5% of clicks; scaled-content risk	Week 1
2	Remove self-serving Product/AggregateRating/Review schema	Google policy risk; would remove stars from ~51% of impressions if penalised	Week 1
3	Consolidate 22 duplicate clusters (130 URLs) into one canonical each	Head terms stuck on page 3–8 because of split signals	Weeks 1–3
4	Launch /law/ statute pages for every 2026 legal change	Fresh demand, low competition, highly citable by AI	Weeks 2–6
5	Launch /tools/ (FnF, gratuity, cheque deadline, MSME interest, RERA interest, limitation, court fee)	No Indian competitor has dispute calculators; linkable; AI-quotable	Weeks 3–10
6	Launch /templates/ (HR emails, bank fraud letter, refund applications)	Huge "format / letter / mail to HR" autocomplete demand; natural funnel into notices	Weeks 3–10
7	Build /legal-notice-to/{brand} entity hubs (40+ brands)	Brand + "refund not received" SERPs owned by complaint boards and customer-care sites	Weeks 4–16
8	Devanagari Hindi section (/hi/) with hreflang	Our #1 Hindi query has 180 impressions with no Hindi page; Hinglish results are astrology "totke"	Weeks 4–12
9	Publish original data (Refund Delay Index, Notice Outcomes Study)	The strongest E-E-A-T and AI-citation lever; digital-PR fuel	Weeks 8–20
10	Advocate reviewer on every page (name, enrolment no., review date); one consistent author entity	YMYL legal content; schema currently shows two different authors	Week 2 onward
11	Rewrite llms.txt, add IndexNow + Bing Webmaster Tools, track a 50-prompt AI-citation panel monthly	ChatGPT search leans on Bing; GSC doesn't report ChatGPT/Perplexity	Week 2
12	Cap new pages at ~5–6 per week with human legal review — no mass AI generation	The 2026 core and spam updates target scaled, low-value content; legal is YMYL	Ongoing

2. Where we stand today

1,270
clicks, last 28 days (Oct 2–29)

82,361
impressions, last 28 days

1.54%
CTR at average position 6.2 (low)

+48%
last 7 days vs prior 7 (369 vs 250 clicks)

Area	Finding	Implication for this plan
Content engine	Long-form, problem-specific articles drive ~95% of clicks (top: time limit to file, FnF recovery, FnF delay notice, damaged product, builder booking refund).	Double down on problem-specific pages. Every new URL targets a concrete dispute.
Head terms	"send legal notice online" position 24 (473 impr); "legal notice online" 46; "how to send a legal notice without a lawyer" 49; "legal notice format for recovery of money" 79.	Consolidation (section 7) is the fastest lever on commercial traffic.
Templated pages	/legal-recovery-by-city + /legal-notice-services = 3,036 URLs, 100% identical after place-name swap; 45 clicks/28d.	Remove. Replace with genuinely local content only where demand is proven.
Schema	Product + AggregateRating (4.9 stars from 3 reviews, one written by the site's own author) on articles; review snippets = 51% of impressions.	Remove. Expect a CTR dip, but it removes the risk of a site-wide manual action.
AI readiness	AI bots allowed in robots.txt ✓; content server-rendered ✓; llms.txt holds 1 link ✗; top article has 0 HTML tables ✗; two different author names in schema ✗; AI referrals fell (ChatGPT 18→3, Gemini 17→5).	Section 11.
Measurement	No conversion events in Vercel; ~1,000 bot "direct" visitors (Singapore/China); admin routes tracked.	Add notice-purchase and lead events; filter bots before judging content ROI.

Demand we already touch (GSC queries since May, grouped by vertical)

Only ~5% of clicks have a visible query (the rest are anonymised long-tail), so treat these as relative demand signals rather than totals.

Cluster	Distinct queries	Impressions	Clicks
notice	275	3,486	41
salary	374	2,037	37
suit	274	1,445	5
bank	281	1,009	3
ecom	141	690	6
rent	214	651	5
b2b	109	406	3
loan	111	395	1
cheque	79	306	0
services	45	254	2
insurance	93	216	4
travel	46	176	0
auto	14	146	1
builder	24	78	0
edu	41	69	0

3. 2026 search & AI landscape: what changed and what it means

Trend	Evidence	What we do
AI Overviews & AI Mode absorb clicks	Seer Interactive: organic CTR on AIO queries fell ~61% (2025), partially recovering to 2.4% (Feb 2026). Being *cited* in an AIO lifts organic clicks ~35%. Only ~17–38% of AIO citations come from the organic top 10 (studies conflict).	Optimise to be **cited**, not just ranked: answer-first passages, fact tables, statute citations, original data. Our 1.5% CTR is partly AIO, so track AI impressions separately.
Search Console now reports AI impressions	The generative-AI performance report (AIO + AI Mode) rolled out worldwide in 2026: impressions by page, country and device, but no query data and not in the API. AI Mode follow-ups appear as odd queries such as "yes" (our GSC shows "yes", 48 impressions).	Review the GSC AI report monthly (manually) for hub pages. Treat "yes", "yes please" and quiz-style queries as AI-Mode signals, not junk.
Query fan-out	AI Mode expands one query into many sub-queries and stitches answers from multiple URLs.	Each hub must cover the full fan-out: deadline, cost, forum, evidence, outcome, template, Hindi. See the fan-out checklist in section 11.
Core & spam updates (Mar, May, Jun 2026)	Targeted scaled content abuse, site reputation abuse and thin YMYL pages. E-E-A-T scrutiny is strictest for legal and finance.	Delete templated city pages; human legal review; named advocate reviewer; cap output; every page needs one original element (case law, template, tool, data).
LLM search (ChatGPT, Perplexity, Gemini, Claude)	Prefers server-rendered, well-chunked, factual pages with original statistics. ChatGPT search draws heavily on Bing's index. llms.txt evidence is weak, but it is cheap to do.	IndexNow + Bing Webmaster Tools; a full llms.txt; statistics from our own case data; strong entity signals (Organization sameAs, consistent author).
UGC & forums win long-tail	Reddit, Quora, Kaanoon, LawRato Q&A and Voxya complaint threads rank for "X refund not received" and "friend not returning money reddit".	Out-answer forums with structured, dated, cited pages. Seed expert answers on Reddit/Quora that link to hubs; AI systems weight those communities heavily.
Multilingual India	Hinglish and Devanagari demand is large: "udhar paisa wapas kaise le" has 9+ autocomplete variants and our top Hindi GSC query has 180 impressions.	A /hi/ Devanagari section with hreflang for top hubs; keep Hinglish blogs as the romanised variant.

> Vendor-reported percentages above are directional; several trace back to the same few studies. The strategic conclusion (be the cited source, not only a blue link) holds either way.

4. 2026 legal & regulatory changes that create new search demand

Each change below is a content opportunity with low competition and high citability. Items marked † come from secondary reporting where sources conflict on details. Confirm against the gazette, circular or judgment and put that primary link on the page.

Change	What it says (as reported)	Status	Pages it feeds
Code on Wages 2019 in force	s.17(2): wages due on resignation, termination or closure payable within **2 working days**; s.17(1): monthly wages by the 7th. Debate on whether "wages" covers the full FnF.	In force 21 Nov 2025†; state rules settling	/law/code-on-wages-fnf-two-working-days, salary-deadline page, FnF calculator, HR-mail templates
EPF Scheme 2026	New EPF, EPS and EDLI schemes under the Code on Social Security; faster claim timelines; penal interest on delay†.	Notified 29 Jun 2026†	/law/epf-scheme-2026-claim-rejection-remedies, PF pages

RBI framework: fraudulent e-banking transactions	Covers all "fraudulent" (not just unauthorised) transactions; **bank bears burden of proof**; rejection must come with evidence and logs; one-time compensation up to ₹25k on losses ≤ ₹50k†; 30-day resolution.	Issued 24 Jun 2026; applies from 1 Jan 2027†	/law/rbi-fraudulent-transaction-framework-2027 + every bank-fraud page
DGCA refund CAR revision	48-hour free cancellation or change (direct bookings); faster refunds; airline responsible for refunds even via agents/OTAs; refund breakdown disclosure.	Issued 24 Feb 2026; effective 26 Mar 2026	/law/dgca-air-ticket-refund-rules-2026, airline & OTA hubs
E-Commerce (Amendment) Rules 2026	Mandatory dark-pattern compliance, annual self-audit, stronger disclosure of return and refund policy; builds on the 2020 grievance timelines (48-hour acknowledgement, one-month redress).	Notified Sep 2026; in force 1 Jan 2027	/law/ecommerce-rules-grievance-officer-48-hours, all brand hubs
MSMED (Amendment) Act 2026 + MSME ODR	45-day cap retained; MSME ODR portal mandatory for new references from Oct 2025; mediation within 90 days, arbitration within 30 days of failure†; stronger award enforcement; TReDS for CPSE invoices.	Assent 13 Aug 2026†	/msme-odr-portal-delayed-payment-guide, /law/msmed-amendment-act-2026, interest calculator
e-Jagriti replaces e-Daakhil	A single consumer-commission filing portal since 1 Jan 2025. District limit ₹50 lakh (2021 rules), though some blogs still quote the old ₹1 crore figure.	Live	/e-jagriti-consumer-complaint-guide, fee/jurisdiction tool
Cheque bounce: Sanjabij Tari v. Kishore Borcar	Supreme Court guidelines (25 Sep 2025): e-summons, early-stage payment, revised compounding, synopsis format; courts to implement by 1 Nov 2025.	In force	/law/cheque-bounce-supreme-court-guidelines-2025, deadline calculator
IRDAI / Ombudsman	Insurers must respond to the ombudsman within 7 days or face ex-parte orders (Jul 2026)†; 2024 master circular timelines for cashless and claims.	Live†	/law/insurance-ombudsman-bima-bharosa-guide, cashless-denied page
BNS / BNSS / BSA (since Jul 2024)	Cheating is now BNS s.318 (old IPC 420), criminal breach of trust s.316; electronic evidence under BSA s.63.	In force	/law/bns-318-cheating-vs-civil-dispute, evidence pages. Update every page still citing IPC 420/406.
Coaching guidelines / UGC refund	Pro-rata coaching refunds within 10 days; UGC full refund (minus a small processing fee) on withdrawal before the cut-off†.	Live†	/law/coaching-centre-refund-guidelines-2024, /law/ugc-fee-refund-policy
Online Gaming Act 2025	Real-money gaming prohibited, raising questions about refunds of wallet balances†.	Live†	/online-gaming-wallet-balance-refund

5. Competitor landscape & where they are weak

Competitor	Type	Where they win	Gap we exploit
LawRato	Lawyer marketplace + Q&A	Massive long-tail Q&A index ("how to recover money lent to a friend", "parcel lost by Delhivery").	Unstructured lawyer answers, no fixed-price action, no tools or templates, often outdated (IPC references).
Vakilsearch / Zolvit, IndiaFilings	Compliance & registration platforms	Domain authority; "legal notice" as one product among many.	Little dispute-specific depth; no brand or dispute hubs; no recovery outcomes data.
LegalKart, MyAdvo	Consultation apps	App installs and brand.	Thin content; weak on long-tail recovery queries.
Kaanoon, LawyersClubIndia, Legally India	Forums	Rank for niche questions (experience letter, hand loan).	No structure, no dates, no conversion path. Easy to out-answer with a structured, cited page.
Voxya (ex-Akosha), ConsumerComplaints.in	Complaint boards (UGC)	Own "brand + refund not received / complaint" SERPs through sheer volume of user posts.	Anecdotes without legal process; low E-E-A-T. Our brand hubs give the actual escalation ladder and case law.
iPleaders / LawSikho blog	Legal education	Deep explainers (legal notice for recovery of money, MSME Samadhaan).	Written for law students, not claimants; no action, templates or calculators.
Jurigram, RTI Wiki, Sudhir Rao, LawSathi, Captain.legal	New 2026 AI-scaled legal blogs / document generators	Fast on trends (e-Jagriti, EPFO, experience letter); template downloads; IncorpX prices notices at ₹1,499.	Accuracy problems (e.g., stale ₹1 crore jurisdiction, wrong BNSS claims). We win on **verified** statute pages, named advocate reviewers and real outcomes.
LiveLaw, Bar & Bench, SCC Online	Legal news	Authority; every consumer-commission order is covered.	Not action-oriented. We **cite** them as case evidence and turn orders into "what this means for you" guidance.
HR-tech (Springworks, Pocket HRMS, Zoho, Keka)	Employer-side guides	Own the 2-day FnF rule SERPs.	Employer perspective only. Nobody owns the employee enforcement route.
Official portals (e-Jagriti, RBI CMS, Bima Bharosa, MSME ODR, EPFiGMS)	Government	Navigational queries.	Poor how-to UX. We publish step-by-step filing guides that link to the portals.
amalegalsolutions.com	Appears to be a group/sister site	Ranks for "legal notice for experience letter".	Coordinate keyword ownership so both sites don't compete for the same queries.

The 15 biggest content gaps no competitor fills

1. **Brand entity hubs** (/legal-notice-to/meesho, /irctc, /makemytrip …) combining grievance-officer details, a dated escalation ladder and cited commission awards.
2. **"Refund shows successful but not received"**: a cross-brand UTR/ARN tracing guide (huge autocomplete demand across Meesho, Ajio, Flipkart, Amazon).
3. **Employee-side Code on Wages enforcement**: the 2-day FnF rule from the employee's side, with a calculator and HR-mail templates.
4. **Dispute calculators**: FnF, gratuity, cheque-bounce deadlines, MSME interest, RERA interest, limitation, court fees. None exist in Indian consumer-legal search.
5. **"Mail to HR" / letter-format templates** that lead into a legal notice when ignored.
6. **RBI 2027 fraud framework as a "your bank must refund you" playbook** with liability and compensation tables.
7. **RERA order enforcement** (recovery certificate, s.40) when the builder ignores the order.
8. **MSME ODR walkthrough + 43B(h) leverage letter** for suppliers.
9. **Honest scam-recoverability matrix** (what can and can't be recovered, by scam type).
10. **Limitation-extension playbook** (WhatsApp acknowledgment s.18, part-payment s.19) for old loans.
11. **PG / co-living rules** (lock-in, notice period, deposit deductions). GSC shows demand and no Indian authority page.
12. **Devanagari Hindi recovery guides.** Hinglish results are astrology "totke".

13. **Insurance "rejection reason → counter-argument → forum" table** with ombudsman rulings.
14. **Original outcome data** (Refund Delay Index, notice settlement rates): impossible for competitors to copy.
15. **Copyright lever for freelancers** (no assignment until payment) and cross-border client and employer recovery.

6. Site architecture & URL system

Keep the URL patterns that already rank (/recovery/*, /send-a-legal-notice/*, root-level guides), and stop creating new near-duplicates in them. Add five new, clearly differentiated directories, each with a single intent:

Directory	Intent	Template	Schema	Count in plan
`(root guide)`	Problem guide (existing pattern)	Guide blueprint (section 12)	Article + FAQPage	81
`/legal-notice-to`	Brand / entity hub: 'legal notice to X'	Hub: answer box, grievance details, ladder, case law, FAQs, CTA	Article + BreadcrumbList + FAQPage; Organization as 'about'	28
`/law`	Statute / regulation explainer	What the law says → who it covers → deadlines table → remedies → primary-source link	Article (+ citation links), BreadcrumbList	21
`/templates`	Letter / email / application format	Preview + copy + Word/PDF download + 'if ignored, next step'	Article + DigitalDocument	18
`/tools`	Calculator / checker	Inputs → result → explanation → 'send notice' CTA	WebApplication + HowTo-style text (no HowTo rich result)	9
`/hi`	Devanagari Hindi variant	Same blueprint, natively written (not machine-translated)	Article with inLanguage hi-IN; hreflang pairs	6
`/reports`	Original data	Methodology, charts, downloadable CSV, press summary	Dataset + Article	4
`/recovery`	Service landing (existing pattern)	Form-led service page	Service (no self-ratings)	1

Hub-and-spoke internal linking

- 15 vertical hubs (/services/* pages upgraded to real hubs) → dispute guides → brand hubs → law, tool and template pages. Every spoke links up to its hub and across to its law, tool and template siblings.
- Each law page links to every guide that relies on it (for example, the Code on Wages page links to all salary and FnF pages). This sends topical authority to money pages.
- Use descriptive anchors (e.g. "FnF within 2 working days under s.17(2)"), not "click here". Keep the existing RelatedRecoveryGuides component, but rank links by hub membership rather than keyword overlap.
- Breadcrumbs on every page: Home › Vertical › Dispute › Brand.

> **Naming rules:** lowercase, hyphenated, no dates in slugs (put dates in titles), no typos (fix the existing "recieved" slugs with 301s), one slug per intent, and never publish a new URL that scores ≥0.6 similarity against an existing slug without a written intent distinction (Appendix A shows this check for every proposed URL).

7. Fix first: risk removal & consolidation

Action	Detail	Owner / effort
Remove templated location pages	Noindex + drop from sitemap: /legal-recovery-by-city/* and /legal-notice-services/* (3,036 URLs). Keep ≤20 metro pages only if rewritten with local courts, commissions, RERA and labour-office details, plus local case outcomes.	Dev, 0.5 day
Remove self-serving review markup	Delete Product/AggregateRating/Review JSON-LD from articles. Show genuine third-party reviews (e.g., Google Business Profile) as on-page text only.	Dev, 0.5 day
Consolidate 22 clusters	Per cluster: keep the canonical shown in Appendix B (chosen by GSC clicks), merge the best unique content into it, 301 the rest. Where a /recovery/* service page and a guide coexist, differentiate intent (service vs information) and cross-link instead of redirecting.	Content + dev, 2–3 weeks
Technical hygiene	Request reindex of /contact (was noindex 5 Sep – 27 Oct); apex→www 307 → 308; real lastmod dates in the sitemap (3,230 URLs currently show the build date); fix the 404 /how-to-file-consumer-complaint-online (301 to the e-Jagriti guide); 301 the typo slugs.	Dev, 1 day
E-E-A-T entity	One author per page (currently two names appear in schema); add an advocate reviewer (name, Bar Council enrolment no., review date) to every legal page; author pages with sameAs links (LinkedIn, Bar Council listing).	Content, ongoing
Update outdated law references	Search all pages for IPC 420/406, "e-Daakhil", "₹1 crore district limit", "Samadhaan only" and replace with BNS 318/316, e-Jagriti, ₹50 lakh, MSME ODR.	Content, 2 days
Measurement	Vercel events for notice purchase, WhatsApp click and form submit; exclude /authority/* and /user/* from analytics; filter bot traffic.	Dev, 0.5 day

Process risk: the repo contains automated blog-generation scripts and a "30-day plan" pipeline. For legal (YMYL) content, every AI-assisted draft needs lawyer verification, one original element and a named reviewer before publishing. Publishing volume should never outrun review capacity.

8. Vertical playbooks

Each playbook lists: what the platform does, the legal basis, the 2026 trend hook, the current canonical hub, primary keywords, secondary keywords, niche long-tail queries, Hindi/Hinglish queries, the competitor gap, the AI-citation angle, and the new unique URLs to build.

GSC query we already get impressions for · AC Google India autocomplete · HI Hindi/Hinglish · † verify primary source

8.1 E-commerce, quick-commerce & food-delivery refunds

GSC evidence (shared cluster "ecom"): 141 queries · 690 impressions since May · Current hub: /flipkart-return-refund-complaint (65 clicks, 12.9k impressions, the strongest consumer page) — use as the model for every brand hub.

WHAT THE PLATFORM DOES

Legal notice to marketplace + seller (joint liability as e-commerce entity), escalation to grievance officer, NCH 1915 / INGRAM docket, e-Jagriti complaint draft. Refund, replacement, compensation and interest.

LEGAL BASIS

Consumer Protection Act 2019 (s.2(47) unfair trade practice, s.35 complaint, s.69 two-year limitation); Consumer Protection (E-Commerce) Rules 2020 — grievance officer must acknowledge in 48 hours and redress within one month; E-Commerce (Amendment) Rules 2026 effective 1 Jan 2027† (dark-pattern compliance, self-audit, refund-policy disclosure); Guidelines for Prevention of Dark Patterns 2023.

> **2026 trend hook:** Amendment Rules 2026 (notified Sep 2026, in force 1 Jan 2027†) give a fresh, dated news hook. Consumer commissions keep awarding refunds plus compensation against Amazon, Flipkart, Zepto and Blinkit; LiveLaw reports these weekly, a ready supply of case citations.

PRIMARY KEYWORDS

- amazon refund not received AC
- flipkart refund not received AC
- legal notice to amazon
- legal notice to flipkart
- wrong product delivered complaint GSC
- refund not received consumer complaint

SECONDARY KEYWORDS

- myntra refund not received AC GSC
- meesho refund not received AC
- ajio refund not received AC
- nykaa refund not received AC
- swiggy refund not received AC
- zomato refund not received AC GSC
- zepto refund not received AC
- blinkit refund not received AC
- instamart refund not received AC
- bigbasket refund complaint AC
- flipkart return pickup delay GSC
- flipkart not returning my product GSC
- can i sue flipkart for late delivery GSC
- damaged product received GSC
- e-commerce grievance officer complaint
- consumer court against amazon

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- amazon refund not received in bank account sbi AC
- flipkart refund not received in upi AC
- flipkart refund otp not received AC
- meesho refund successful but not received AC
- meesho refund initiated but not received AC
- ajio refund initiated but not received AC
- myntra refund processed but not received GSC
- amazon refund not received cancelled order AC
- refund shows successful but not credited — UTR not found
- product reached warehouse but refund not initiated GSC
- zepto ordered to pay consumer compensation GSC 144 impr
- amazon seller refusing refund after return
- flipkart rejected return as 'item mismatch'
- open-box delivery refused refund
- cash on delivery refund to bank account not received
- refund as gift card instead of original source — legal?
- no-return policy items defective — rights

- marketplace says 'we are only an intermediary' — liability

HINDI / HINGLISH

- amazon ko legal notice kaise bheje AC HI
- flipkart ko legal notice kaise bheje AC HI
- refund nahi aaya kya kare HI
- galat product aaya complaint kaise kare HI

COMPETITOR GAP

Results for brand + 'refund not received' queries are customer-care number sites, Voxya complaint threads and the brand's own help pages. None of them offer a dated escalation ladder (grievance officer, then NCH, then legal notice, then e-Jagriti) with case citations and award amounts. No competitor has one hub per brand that pairs the legal route with the brand's grievance-officer details and real commission orders.

AI-CITATION ANGLE

One entity hub per brand: an answer-first 'Can I send a legal notice to Meesho?' block, a table of grievance-officer timelines, three to five cited consumer-commission orders with award amounts, and a 'what to do on day 0, 7, 15 and 30' timeline. LLMs readily quote a dated sequence like this.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
/legal-notice-to/amazon	Amazon refund / wrong item / seller dispute hub	P0	HUB — consolidate 4 Amazon blogs into it
/legal-notice-to/flipkart	Flipkart hub — delivered by upgrading the existing /flipkart-return-refund-complaint (65 clicks/28d) to the brand-hub spec	P0	UPGRADE EXISTING — do not create a second Flipkart URL
/legal-notice-to/myntra	Myntra refund processed but not received	P1	HUB — absorbs /blog/myntra-refund-not-received-steps
/legal-notice-to/meesho	Meesho refund not received / wrong item / seller payout	P0	NEW — zero existing coverage, strong AC demand
/legal-notice-to/ajio	Ajio refund initiated but not received	P1	NEW
/legal-notice-to/nykaa	Nykaa refund / fake product	P2	NEW
/legal-notice-to/tata-cliq	Tata CLiQ refund	P2	NEW
/legal-notice-to/jiomart	JioMart refund / wrong delivery	P2	NEW
/legal-notice-to/croma-reliance-digital	Electronics retailer refund / replacement refusal	P2	NEW
/legal-notice-to/blinkit	Blinkit hub	P1	HUB — absorbs /blog/money-recovery-blinkit-wrongful-delivery
/legal-notice-to/zepto	Zepto hub (GSC already shows 144 impressions)	P0	HUB — absorbs /blog/money-recovery-zepto-wrongful-delivery
/legal-notice-to/swiggy	Swiggy & Instamart hub	P1	HUB — absorbs send-a-legal-notice/swiggy page + Instamart blog
/legal-notice-to/zomato	Zomato hub	P1	HUB — absorbs send-a-legal-notice/zomato page (fix 'recieved' typo via 301)
/legal-notice-to/bigbasket	BigBasket refund to source account	P2	NEW
/refund-shows-successful-but-not-received	UTR / ARN tracing — what to do when refund 'succeeded' but bank shows nothing	P0	NEW — cross-brand, very high AC demand

8.2 Flights, trains, buses, cabs, hotels & holiday packages

GSC evidence (shared cluster "travel"): 46 queries · 176 impressions since May · Current hub: /send-a-legal-notice/airline-refund-not-received (most clicks of 6 overlapping pages)

WHAT THE PLATFORM DOES

Notice to airline / OTA / IRCTC / hotel for refund, delay or cancellation compensation and package non-performance. Agent-vs-airline liability analysis. DGCA AirSewa escalation, then consumer commission.

LEGAL BASIS

DGCA CAR Section 3 Series M Part II (refunds) revised 24 Feb 2026, effective 26 Mar 2026† — 48-hour free cancellation/change, faster refunds, airline responsible even when booked via agent; DGCA CAR on denied boarding / delays / cancellations (compensation slabs); Railway refund rules (TDR); CPA 2019 deficiency of service.

> **2026 trend hook:** The 2026 DGCA refund CAR is new and widely searched. Our GSC shows 'travel voucher vs cash refund' and 'can I get a full refund if flight is cancelled' with no page ranking. Commissions keep holding IRCTC liable for failed-TDR refunds with interest (LiveLaw).

PRIMARY KEYWORDS

- flight refund not received
- airline refund legal notice
- irctc refund not received AC
- flight cancellation compensation india
- makemytrip refund not received AC

SECONDARY KEYWORDS

- indigo refund not received AC
- air india refund status / delay AC
- akasa air refund AC
- spicejet refund
- goibibo refund AC
- cleartrip refund not received AC
- easemytrip refund complaint AC
- redbus refund not received AC
- ola refund not received AC
- uber refund AC
- rapido refund AC
- oyo refund not received AC
- booking.com refund india AC
- tour package refund
- travel voucher vs cash refund GSC
- how to request compensation from airline GSC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- irctc refund not received for failed transaction AC
- irctc tdr rejected what to do
- irctc refund not received mail format AC
- indigo refund not received reddit AC
- airline refund to travel agent but agent not paying
- flight rescheduled more than 2 hours refund rights
- denied boarding compensation india amount
- refund of non-refundable ticket on medical grounds (DGCA 2026)†
- flight cancelled refund in credit shell — forced voucher legal?
- international flight cancelled refund from indian OTA
- hotel overbooked no room compensation
- holiday package cancelled by operator refund
- visa agent took money no visa refund
- bus cancelled redbus refund not received
- cab driver cancelled cancellation fee refund

HINDI / HINGLISH

- flight cancel refund nahi mila kya kare HI
- irctc refund nahi aaya HI

COMPETITOR GAP

Competitors publish generic 'refund policy' explainers, and OTAs publish their own policy pages. Nobody maps the 2026 DGCA CAR rules to concrete refund deadlines per payment method, or explains who pays when an OTA collected the money (airline vs agent). IRCTC TDR-rejection case law is scattered across news sites with no consolidated guide.

AI-CITATION ANGLE

A deadline table (payment mode × refund deadline × legal basis) and a 'who is liable' decision tree, airline vs OTA vs agent. Each brand hub should cite the CAR clause number.

NEW UNIQUE URLS

URL	Purpose	Priority	Status

8.3 Salary, full & final settlement and employment dues

GSC evidence (shared cluster "salary"): 374 queries · 2,037 impressions since May · Current hub: /legal-notice-for-full-and-final-settlement-delay (110 clicks, 5.1k impressions) for FnF; /what-are-the-legal-steps-to-recover-unpaid-salary-from-an-employer-in-india for salary.

WHAT THE PLATFORM DOES

The flagship vertical (largest GSC demand, 374 queries). Notice to employer, directors and HR for unpaid or delayed salary, FnF, notice-period recovery, gratuity, PF, bonus, leave encashment, incentives, reimbursements, exit documents. Labour-commissioner complaint drafting.

LEGAL BASIS

Code on Wages 2019 in force 21 Nov 2025† — s.17(1) monthly wages by the 7th of the next month; s.17(2) dues on resignation, termination or closure within 2 working days†; Code on Social Security 2020 (gratuity, PF; EPF Scheme 2026 notified 29 Jun 2026†); Payment of Bonus provisions; Maternity Benefit; Industrial Relations Code (retrenchment compensation); Indian Contract Act s.73–74 (notice-period / bond penalties).

> **2026 trend hook:** The two-working-day FnF rule is the biggest legal-demand shift of 2026. HR and payroll sites cover it from the employer side, and almost nobody covers the employee's enforcement route. Our GSC already shows 'delay in full and final settlement mail format word', 'late salary payment law india' and 'why salary is late this month'.

PRIMARY KEYWORDS

- salary not paid by company AC
- full and final settlement not received AC
- legal notice to employer for salary GSC
- fnf settlement delay AC
- gratuity not paid by employer AC
- pf not deposited by employer AC

SECONDARY KEYWORDS

- salary delay complaint AC
- late salary payment law india GSC
- salary withheld meaning GSC 121 impr
- salary recovery means GSC
- legal action if full and final settlement not done GSC
- relieving letter not given AC GSC
- experience letter not given AC
- notice period buyout rules AC
- bonus not paid AC
- leave encashment not paid
- incentive not paid AC
- commission not paid after resignation AC
- salary deducted without reason AC
- labour commissioner complaint online AC
- layoff severance india AC
- training bond recovery

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- full and final settlement not received mail to hr template AC
- delay in full and final settlement mail format word GSC
- salary delay complaint letter to hr pdf AC
- pf not deposited by employer complaint letter format word AC

- maternity benefit not paid by employer
- gig worker payout withheld by platform
- foreign remote employer not paying salary to indian employee
- employer not giving form 16 / tds deducted not deposited
- gratuity for fixed-term employee after 1 year†

HINDI / HINGLISH

- salary nahi mili kya kare HI
- company salary nahi de rahi complaint HI

- fnf settlement nahi mila HI
- pf jama nahi kiya company ne HI

COMPETITOR GAP

HR-tech blogs (Springworks, Pocket HRMS, Zoho, Keka) explain the 2-day FnF rule to employers, not to employees. Forums (Kaanoon, LawRato Q&A) give one-line advice. Nobody combines employee-side templates (HR email, then legal notice, then labour-commissioner complaint) with a calculator. 'Mail to HR' template queries are a large, unmet funnel entry point.

AI-CITATION ANGLE

Statute-anchored answer blocks ('Under s.17(2) of the Code on Wages, 2019, dues must be paid within two working days of exit†'), an FnF components table, a calculator, and a downloadable HR-email template. Original data: median FnF delay from our own cases.

NEW UNIQUE URLS

8.4 Personal loans & money lent to friends, relatives or partners

GSC evidence (shared cluster "loan"): 111 queries · 395 impressions since May · Current hub: /legal-notice-to-recovery-my-loan-from-friend (22 clicks, 1.1k impressions; 10 overlapping URLs — consolidate)

WHAT THE PLATFORM DOES

Demand notice to borrower (and guarantor), with evidence assembly (UPI / bank statements, WhatsApp chats, voice notes), then summary suit under Order XXXVII CPC or cheque route. The service is cheap and quick, and these customers come from a strongly emotional search.

LEGAL BASIS

Limitation Act 1963 (3 years); Order XXXVII CPC summary suit (written acknowledgment / promissory note); Indian Evidence Act → Bharatiya Sakshya Adhiniyam 2023 (electronic evidence s.63); BNS 2023 s.318 cheating / s.316 criminal breach of trust only where dishonest intent existed from the start; NI Act s.138 if cheque issued.

> **2026 trend hook:** Hinglish demand is large ('udhar paisa wapas kaise le' autocomplete has 9+ variants), and the current results are mostly spiritual 'totke/wazifa' pages, an easy gap. GSC shows 'personal loan legal notice format' at position 26–34.

PRIMARY KEYWORDS

- legal notice for recovery of money from friend GSC
- friend not returning money AC
- how to recover money lent to friend
- money lent without agreement recovery
- personal loan legal notice format GSC

SECONDARY KEYWORDS

- relative not returning money AC
- hand loan recovery AC GSC
- is hand loan legal in india GSC
- friend not returning money police complaint AC
- upi payment as proof of loan
- whatsapp chat as evidence money [existing page]
- promissory note format
- summary suit order 37 AC
- how to make a personal loan legal GSC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- friend not returning money police complaint — will police act? (civil vs BNS 318)
- boyfriend took money not returning AC
- girlfriend not returning money after breakup
- money given for wedding / medical emergency not returned
- friend moved abroad not returning money
- borrower died — recover from legal heirs
- loan given in cash no proof — options
- friend gave cheque that bounced — 138 vs civil suit
- friend says money was a gift — burden of proof
- partial repayment restarts limitation (s.19)
- written acknowledgment on whatsapp extends limitation (s.18)

HINDI / HINGLISH

- udhar paisa wapas kaise le AC HI
- udhar paisa wapas lene ka tarika AC HI
- diya hua paisa wapas kaise le AC HI
- dost paise wapas nahi kar raha HI
- apna paisa wapas kaise le AC HI

COMPETITOR GAP

Hinglish results are dominated by astrology and totke pages. English results are LawRato and Kaanoon Q&A threads, plus generic iPleaders explainers. Nobody publishes the limitation-extension angle (s.18 written acknowledgment on WhatsApp, s.19 part-payment) as a practical playbook, or a 'police vs civil' decision guide under BNS.

AI-CITATION ANGLE

A decision tree (proof type → best route → time limit), a limitation table citing exact Limitation Act articles and sections, and a BNS 318 vs civil dispute explainer citing Supreme Court guidance that a mere breach of promise is not cheating.

NEW UNIQUE URLS

URL	Purpose	Priority	Status

8.5 Cheque bounce (Section 138 NI Act)

GSC evidence (shared cluster "cheque"): 79 queries · 306 impressions since May · Current hub: /cheque-bounce-notice-timeline-section-138 (5 overlapping pages)

WHAT THE PLATFORM DOES

Statutory demand notice within 30 days of the return memo, tracking of the 15-day cure period, complaint-filing support, settlement and compounding. Every step has a fixed legal deadline, so time-sensitive deadline queries convert well.

LEGAL BASIS

NI Act s.138–142 (notice within 30 days of dishonour memo; 15 days to pay; complaint within 1 month of cause of action); s.141 company and director liability; Sanjabij Tari v. Kishore S. Borcar (SC, 25 Sep 2025) — nationwide guidelines on e-summons, early settlement, revised compounding costs; courts to implement by 1 Nov 2025.

> **2026 trend hook:** The 2025 Supreme Court guidelines are still being explained badly online. 'What is the new rule of cheque bounce' appears in autocomplete. GSC shows 'cheque bounce notice period' at position 61 (67 impressions) and 'second cheque bounce complaint maintainability' near page 1.

PRIMARY KEYWORDS

- cheque bounce notice AC
- cheque bounce case process AC
- cheque bounce notice period GSC
- section 138 notice format
- cheque bounce case time limit GSC

SECONDARY KEYWORDS

- cheque bounce notice format in hindi AC
- cheque bounce notice after 30 days AC
- cheque bounce compromise AC
- stop payment cheque bounce case AC
- security cheque misuse AC
- multiple cheque bounce case GSC
- post dated cheque validity GSC
- cheque bounce case punishment AC
- cheque bounce case is civil or criminal AC
- cheque bounce charges sbi AC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- what is the new rule of cheque bounce AC (Sanjabij Tari 2025)
- cheque bounce case and civil suit for recovery of same amount GSC
- second cheque bounce complaint maintainability GSC
- cheque bounced 'account closed' — 138 applies?
- cheque bounced 'signature mismatch' — 138 applies?
- cheque bounced 'payment stopped by drawer'
- security cheque given to NBFC / landlord misused
- cheque bounce against company — directors liable? (s.141)
- cheque bounce accused abroad / NRI
- cheque bounce notice served on whatsapp / email valid?
- online cheque bounce case status check

HINDI / HINGLISH

- cheque bounce case in hindi AC HI
- cheque bounce hone ke kitne din baad notice dena chahiye GSC 46 impr HI
- cheque bounce notice format hindi AC HI

COMPETITOR GAP

Law-firm blogs restate s.138 in general terms. Very few cover the Sanjabij Tari 2025 changes in practical terms, and none offer a deadline calculator from the dishonour-memo date. Return-reason pages (account closed, signature mismatch, stop payment) are thin across the SERP.

AI-CITATION ANGLE

A deadline calculator, a return-reason × 138-applicability table, and a summary of the 2025 SC directions with the citation. These are highly quotable facts.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
/tools/cheque-bounce-deadline-calculator	Enter return-memo date → notice, cure and complaint deadlines	P0	NEW — no competitor tool

8.6 Business, MSME & B2B invoice recovery

GSC evidence (shared cluster "b2b"): 109 queries · 406 impressions since May · Current hub: /msme-delayed-payment-recovery-samadhan-vs-legal-notice (update for ODR) + /recovery-of-unpaid-dues-for-my-business (B2B money page)

WHAT THE PLATFORM DOES

Demand notices for unpaid invoices, MSME delayed-payment claims (interest at 3× RBI bank rate, compounded monthly), bulk notice campaigns via email, WhatsApp and speed post, and pre-arbitration notices. This is the B2B revenue line that sits alongside the B2C traffic.

LEGAL BASIS

MSMED Act 2006 s.15–16 (45-day cap, compound interest at 3× bank rate), s.18 (MSEFC reference) → MSME ODR portal mandatory for new references from Oct 2025†; MSMED (Amendment) Act 2026 (assent 13 Aug 2026†); Income-tax s.43B(h) (buyers lose deduction if MSE dues unpaid beyond 45 days); Section 80 CPC (notice to Government); Commercial Courts Act s.12A pre-institution mediation; Arbitration Act.

> **2026 trend hook:** The MSMED Amendment Act 2026 and the move from Samadhaan to the ODR portal are fresh, high-intent topics. Autocomplete for 'msme odr portal' has nine variants. GSC shows 'legal notice for delay in supply of machinery india' (67 impressions, position 4).

PRIMARY KEYWORDS

- unpaid invoice recovery AC
- msme delayed payment AC
- msme odr portal AC
- legal notice for non payment of invoice GSC
- business debt recovery india GSC

SECONDARY KEYWORDS

- msme samadhaan AC
- msme delayed payment interest calculator AC
- 43b(h) msme payment
- vendor not paying AC
- contractor not paying subcontractor AC
- export payment not received AC
- client not paying invoice what to do AC
- recovery of advance payment GSC
- legal notice for delay in supply of machinery GSC
- section 80 cpc notice

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- msme odr portal registration / process / case status AC
- msme delayed payment affidavit format AC
- msme delayed payment interest calculation in excel AC
- what happens if export payment not received within 9 months (FEMA) AC
- export payment not received under gst AC
- buyer disputes quality after 45 days to avoid MSME interest
- government department not paying contractor bills
- distributor / dealer not paying dues
- franchisor refusing franchise fee refund
- sub-contractor unpaid by main contractor
- gst paid on invoice but client never paid — bad debt
- pre-institution mediation s.12A before commercial suit
- bulk legal notices to 500 defaulters — cost & process

HINDI / HINGLISH

- company payment nahi de rahi kya kare HI
- msme payment complaint kaise kare HI

COMPETITOR GAP

Results are CA blogs, government portals and Bar & Bench analysis. No one walks a supplier through 'notice, then ODR, then award enforcement' with an interest calculator and a 43B(h) leverage letter. Section 80 CPC notice pages (claims against government) are mostly bare format dumps.

AI-CITATION ANGLE

An interest calculator, an ODR step table with statutory timelines (90-day mediation and the 30-day move to arbitration, per the 2026 amendment†), and a 43B(h) explainer. Original data: average days-to-payment after notice for our B2B cases.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
/msme-odr-portal-delayed-payment-guide	MSME ODR portal: registration → mediation → arbitration	P0	NEW — replaces Samadhaan intent

8.7 Freelancers, creators & agencies

GSC evidence (shared cluster "b2b"): 109 queries · 406 impressions since May · Current hub: /freelancer-payment-recovery-legal-options-india (7 overlapping pages; note exact duplicate slug /freelancer-payment-recovery-guide vs /blog/freelancer-payment-recovery-guide)

WHAT THE PLATFORM DOES

Notices to domestic and international clients, brands and agencies for unpaid work, with MSME (Udyam) leverage for registered freelancers and off-platform disputes (Upwork, Fiverr).

LEGAL BASIS

Indian Contract Act; MSMED Act (if Udyam-registered); Copyright Act s.19 (assignment only on payment, a strong lever); FEMA for export of services; ASCI influencer guidelines (for brand deals).

> **2026 trend hook:** The creator economy is growing, and 'influencer payment not received' returns no useful Indian result. The 'copyright not transferred until paid' lever is almost never mentioned online.

PRIMARY KEYWORDS

- freelancer payment not received
- client not paying freelancer india
- legal notice to client for non payment
- influencer payment not received

SECONDARY KEYWORDS

- upwork client did not pay AC
- fiverr payment dispute
- agency not paying creator
- international client not paying indian freelancer
- msme registration for freelancers
- work done but client not paying

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- client using my design without paying — copyright
- brand deal payment delayed 90 days
- youtube MCN not paying revenue share
- off-platform upwork client stopped paying
- client ghosted after final delivery
- milestone payment withheld for 'revisions'

HINDI / HINGLISH

- client payment nahi de raha kya kare HI

COMPETITOR GAP

Freelancer content online is mostly US or UK centric (results for 'client not paying invoice uk/australia/canada' dominate autocomplete). Indian guides ignore the copyright-assignment lever and Udyam-based interest claims for freelancers.

AI-CITATION ANGLE

A comparison table of route by client location (India / abroad / platform) and a copyright-lever explainer citing s.19.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
`/copyright-not-transferred-until-paid-freelancer`	Use copyright law when a client won't pay	P1	NEW — unique angle
`/influencer-brand-deal-payment-not-received`	Brand / agency not paying influencer	P1	NEW
`/upwork-fiverr-client-not-paying-india`	Platform and off-platform client disputes	P2	NEW

8.8 Rental: security deposits, PG/co-living, tenants, societies & brokers

GSC evidence (shared cluster "rent"): 214 queries · 651 impressions since May · Current hub: /recover-security-deposit-from-landlord-india (8 overlapping landlord pages — consolidate)

WHAT THE PLATFORM DOES

Notices for deposit refund (landlord, PG, co-living, hostel), unreasonable deductions, unpaid rent and damage (landlord side), society maintenance recovery, broker / NoBroker / token-money refunds.

LEGAL BASIS

Contract Act; Transfer of Property Act s.108; state Rent Control Acts; Model Tenancy Act 2021 (deposit cap of 2 months residential — adopted only by some states†); state Cooperative Societies Acts (maintenance recovery); Registration Act (11-month agreements).

> **2026 trend hook:** GSC shows PG questions: 'what is the notice period for vacating a PG in Pune', 'what is lock in period in PG', 'does PG take security deposit'. These are local, specific questions that our current pages don't answer. 'Token money refund rules' has a strong autocomplete cluster.

PRIMARY KEYWORDS

- security deposit not returned by landlord AC
- pg deposit refund
- legal notice to landlord for security deposit
- tenant not paying rent and not vacating AC
- token money refund rules AC

SECONDARY KEYWORDS

- pg owner not returning deposit GSC
- does pg take security deposit GSC
- pg lock in period GSC
- pg notice period GSC
- unreasonable deductions from deposit
- tenant damaged property AC
- society maintenance recovery notice format AC
- nobroker refund AC
- brokerage refund
- is rent agreement valid without notary GSC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- what is the notice period for vacating a pg in pune GSC
- pg owner deducting full deposit for painting
- co-living (stanza / zolo) deposit refund delay
- hostel caution money refund
- landlord selling flat — who returns deposit
- deposit adjusted against last months rent — legal?
- token money refund rules india / in hindi AC
- token amount refund under rera AC
- nobroker money-back plan refund not received
- commercial shop deposit refund after lease end
- society not giving NOC due to dispute

HINDI / HINGLISH

- security deposit wapas kaise le HI
- pg owner deposit nahi de raha HI
- token money wapas kaise le HI

COMPETITOR GAP

Autocomplete results for deposit queries are dominated by US, UK and UAE pages ('within 30 days texas', 'dubai', 'singapore'), so Indian intent is badly served. PG and co-living queries have no authoritative Indian page. Model Tenancy Act state-adoption status is rarely tabulated.

AI-CITATION ANGLE

A state-wise table (Model Tenancy Act adoption, deposit caps, rent authority), PG FAQ blocks with exact answers, and a 'legitimate vs illegitimate deductions' table.

8.9 Builders, RERA & real-estate refunds

GSC evidence (shared cluster "builder"): 24 queries · 78 impressions since May · Current hub: /builder-booking-cancellation-refund-legal-notice (67 clicks, 3.7k impressions)

WHAT THE PLATFORM DOES

Notice to builder for delayed possession, booking-cancellation refund, plot refunds; RERA complaint drafting; enforcement of unpaid RERA refund orders (recovery certificates).

LEGAL BASIS

RERA 2016 s.18 (refund with interest or delay interest), s.31 complaint, s.40 recovery as arrears of land revenue; Newtech Promoters (SC 2021) — refund right is unconditional; state RERA rules on interest (SBI MCLR + 2%); CPA 2019 as an alternative forum.

> **2026 trend hook:** Rich case flow: state RERA orders award 9–11% interest (LiveLaw). Our search found no good guide on enforcing a RERA order when the builder ignores it (the recovery certificate). GSC shows 'cancellation of flat booking before agreement' and 'rera rules for refund of booking amount' around position 38–42.

PRIMARY KEYWORDS

- builder delay possession refund
- rera complaint online AC
- flat booking cancellation refund AC
- builder not refunding booking amount AC
- rera refund with interest

SECONDARY KEYWORDS

- rera complaint format AC
- rera rules for refund of booking amount GSC
- cancellation of flat booking before agreement GSC
- flat booking cancellation charges as per rera AC
- plot booking amount refund AC
- legal notice against builder GSC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- builder not paying rera refund order — recovery certificate
- rera complaint status / tracking by state AC
- subvention scheme builder stopped paying pre-emi
- assured return builder default
- carpet area less than promised refund
- ifms / maintenance deposit refund from builder
- cancellation of flat booking before agreement letter GSC
- rera vs consumer court — which is faster

HINDI / HINGLISH

- builder paisa wapas nahi kar raha HI
- flat booking cancel refund kaise milega HI

COMPETITOR GAP

Builder-refund content is plentiful, but RERA order enforcement (s.40 recovery certificate, execution, attachment) is almost absent. State-wise RERA complaint procedure pages are thin aggregator pages. Subvention and assured-return defaults are badly covered.

AI-CITATION ANGLE

A state RERA table (portal, fee, interest rule, typical disposal time) and an enforcement flowchart.

NEW UNIQUE URLS

URL	Purpose	Priority	Status

8.10 Banking, UPI & digital-payment disputes

GSC evidence (shared cluster "bank"): 281 queries · 1,009 impressions since May · Current hub: /recovery/fraud-transaction-amount (24 clicks, 2.4k impressions) for fraud; /legal-notice-to-bank-unauthorized-ecs-nach-debit-reversal for ECS.

WHAT THE PLATFORM DOES

Notice to bank for unauthorised or fraudulent debits, wrong UPI transfers, failed-transaction refunds, ECS/NACH errors, illegal charges; RBI Ombudsman complaint drafting. Note: we pursue the bank's liability, not the fraudster (frozen accounts are out of scope, as an existing blog already says).

LEGAL BASIS

RBI customer-liability circular 2017 (zero liability if reported within 3 working days); RBI revised framework for fraudulent electronic banking transactions, effective 1 Jan 2027† (bank bears burden of proof; one-time compensation up to ₹25,000 on losses ≤ ₹50,000†); RBI TAT harmonisation 2019 (auto-reversal + ₹100/day compensation for failed transactions); RB-Integrated Ombudsman Scheme 2021; NPCI UPI dispute rules; 1930 helpline & cybercrime.gov.in.

> **2026 trend hook:** The RBI's 2027 framework is the biggest consumer-banking change in years, and it reverses the burden of proof. GSC shows quiz-style queries about shadow reversal timelines and ECS compensation, likely bank-exam (JAIIB/CAIIB) or AI-agent queries. 'Loan closed but ECS still active' ranks at position 2 with no dedicated page.

PRIMARY KEYWORDS

- upi fraud money back AC
- wrong upi transfer refund AC
- bank not refunding fraud money
- unauthorised transaction bank liability
- failed transaction refund rbi guidelines AC

SECONDARY KEYWORDS

- cyber fraud money recovery AC
- wrong account money transfer refund application AC
- credit card fraud refund india AC
- atm cash not dispensed but amount debited AC
- ecs dispute GSC
- loan closed but ecs still active GSC
- bank charges refund letter AC
- emi bounce charges refund AC
- chargeback india AC
- rbi ombudsman complaint
- can bank reverse a transaction if scammed GSC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- within how many days should shadow reversal be credited GSC
- how long does it take to get fraud money back GSC
- state bank of india must refund unauthorized withdrawals GSC 131 impr
- failed transaction refund time sbi / hdfc / gpay AC
- wrong upi transfer — receiver refusing to return
- money debited via sim-swap fraud — bank liable?
- credit card charged wrong amount / double charged
- insurance premium auto-debited from account without consent GSC
- upi autopay subscription refund
- bank froze my account due to cyber complaint (refer — out of scope)

HINDI / HINGLISH

- upi fraud paisa wapas kaise milega HI
- galat account me paise chale gaye wapas kaise le HI
- phonepe se paisa wapas kaise le AC HI
- autopay ka paisa wapas kaise le AC HI

COMPETITOR GAP

Bank and payment-app help pages, plus news coverage of the RBI drafts, dominate this space. Nobody turns the RBI rules into a 'your bank must refund you' playbook with timelines, a compensation table and a notice template. Most guides tell users to call 1930 and stop there.

AI-CITATION ANGLE

RBI rule tables: liability by reporting day, TAT × compensation for each transaction type, and a before-2027 vs after-2027 comparison. These answer the exact quiz-style queries we already see in GSC.

NEW UNIQUE URLS

URL	Purpose	Priority	Status

8.11 Investment scams, crypto, brokers & online gaming

GSC evidence (shared cluster "bank"): 281 queries · 1,009 impressions since May · Current hub: /how-to-recover-money-stuck-in-online-cyber-fraud + /send-a-legal-notice/trading-scam-telegram

WHAT THE PLATFORM DOES

Realistic-expectation pages: what can be recovered (bank liability, exchange or broker liability, SEBI SMART ODR, platform wallet balances), what can't, and when a legal notice helps. These build trust and capture a large volume of scam-victim searches.

LEGAL BASIS

SEBI SCORES & SMART ODR (securities disputes); BNS 318/319; IT Act s.66C/66D; Promotion & Regulation of Online Gaming Act 2025 (real-money gaming ban — wallet-balance refunds)†; PMLA/FIU (crypto VASPs registered with FIU-IND).

> **2026 trend hook:** 'Digital arrest' scams, Telegram task scams and trading-group scams are top cyber-crime trends in India. WazirX-style frozen exchange balances are a related category. GSC shows a large cluster of 'can I get my money back after being scammed' queries (positions 9–10).

PRIMARY KEYWORDS

- can i get my money back after being scammed GSC
- online fraud money recovery india AC
- trading scam money recovery
- task scam telegram money recovery AC
- digital arrest scam money back

SECONDARY KEYWORDS

- investment fraud recovery AC
- crypto exchange withdrawal stuck
- stock broker fraud complaint sebi
- demat account fraud AC
- fake job offer registration fee refund
- loan app harassment complaint AC
- online gaming wallet balance refund

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- how long does it take to get fraud money back GSC
- is it possible to get money back after being scammed GSC
- telegram task scam complaint AC
- money stuck in crypto exchange after hack
- broker squared off without consent refund
- sebi smart odr complaint process
- real-money gaming app wallet balance after ban†
- loan app took extra charges refund

HINDI / HINGLISH

- fraud ka paisa wapas kaise milega HI
- online fraud paisa wapas AC HI
- trading scam hai kya AC HI

COMPETITOR GAP

Recovery-agency ads promise unrealistic results, and news articles offer no route. An honest 'recoverability matrix' (scam type → realistic route → odds) does not exist. Being honest here builds the trust that YMYL content needs.

AI-CITATION ANGLE

A recoverability matrix and step-by-step guides for SEBI SMART ODR and the cyber portal. Quotable, honest statements ('Recovery from the fraudster is rare; recovery from the bank is possible when…').

NEW UNIQUE URLS

URL	Purpose	Priority	Status
`/scam-money-recovery-what-is-possible`	Recoverability matrix by scam type (honest guide)	P0	NEW — trust page
`/digital-arrest-scam-money-recovery`	Digital arrest scam: reporting & bank liability	P1	NEW — trending

/loan-app-harassment-excess-charges-legal-notice	Loan app harassment & excess charges	P2	NEW

8.12 Insurance claim rejections & delays

GSC evidence (shared cluster "insurance"): 93 queries · 216 impressions since May · Current hub: /legal-notice-to-insurance-company-claim-rejection-recovery (5 overlapping pages)

WHAT THE PLATFORM DOES

Notice to insurer on repudiation or delay, Bima Bharosa grievance, Insurance Ombudsman complaint drafting (awards up to ₹50 lakh†), consumer commission. Health, motor, life, travel, mis-selling and free-look refunds.

LEGAL BASIS

Insurance Ombudsman Rules 2017 (amended 2023); IRDAI Protection of Policyholders' Interests master circular 2024 (cashless decision within 1 hour, discharge within 3 hours, claim settlement timelines†); Bima Bharosa portal; CPA 2019.

> **2026 trend hook:** Health claim rejections reached about 8% in FY25 (Outlook Money). IRDAI's July 2026 directive lets ombudsmen pass ex-parte orders if insurers don't respond within 7 days†. GSC shows 'legal notice to insurance company for rejecting claim' at position 9 and 'difference between claim repudiated and claim rejected'.

PRIMARY KEYWORDS

- health insurance claim rejected what to do AC
- legal notice to insurance company for rejecting claim GSC
- insurance ombudsman complaint AC
- bima bharosa complaint AC
- cashless claim denied

SECONDARY KEYWORDS

- car insurance claim rejected AC
- life insurance claim rejected AC
- mediclaim reimbursement delay AC
- insurance claim rejection reasons
- claim repudiated vs rejected GSC
- insurance ombudsman complaint format AC
- bima bharosa vs insurance ombudsman AC

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- claim rejected for pre-existing disease non-disclosure
- claim rejected 'hospitalisation not required' (daycare)
- partial settlement — deductions for consumables
- cashless denied at discharge — reimbursement rights
- motor claim rejected — driving licence / drunk driving clause
- death claim rejected within 3 years (s.45 Insurance Act)
- free-look cancellation refund not received
- policy mis-sold as investment — refund

HINDI / HINGLISH

- insurance claim reject ho gaya kya kare HI
- health insurance claim nahi mila HI

COMPETITOR GAP

Insurer blogs explain things from the insurer's side, and aggregator blogs (PolicyX, Ditto) cover the ombudsman only briefly. No one maps rejection reason → counter-argument → forum with cited ombudsman and commission rulings.

AI-CITATION ANGLE

A 'rejection reason → legal counter → evidence → forum' table and an IRDAI timelines table. Cite s.45 and the master circular.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
`/health-insurance-claim-rejection-reasons-counter`	Top rejection reasons & how to contest each	P0	NEW
`/cashless-claim-denied-what-to-do`	Cashless denied: 1-hour / 3-hour IRDAI rules†	P1	NEW
`/claim-repudiated-vs-rejected-difference`	Repudiation vs rejection (GSC query)	P1	NEW

/templates/insurance-ombudsman-complaint-format	Ombudsman complaint format (Annexure VI-A)	P1	NEW — AC

8.13 Education: coaching, college, school, ed-tech & study-abroad

GSC evidence (shared cluster "edu"): 41 queries · 69 impressions since May · Current hub: /send-a-legal-notice/school-college-fee-refund-admission-cancellation (5 overlapping pages)

WHAT THE PLATFORM DOES

Notices for fee refunds on withdrawal or cancellation, coaching refunds, ed-tech course and loan cancellation, study-abroad consultant refunds, hostel caution money.

LEGAL BASIS

Ministry of Education Guidelines for Regulation of Coaching Centres (Jan 2024: pro-rata refund within 10 days when a student leaves midway)†; UGC fee-refund notification (full refund minus processing fee if withdrawn before cut-off)†; CPA 2019 (education is a 'service' — mixed case law); state fee-regulation acts.

> **2026 trend hook:** GSC shows 'private college fees refund law' (17 impressions, position 6). Ed-tech collapses (BYJU's) created 'byju's not refunding money' demand, and loan-linked ed-tech EMIs are a recurring trap.

PRIMARY KEYWORDS

- college fee refund AC
- coaching fee refund rules AC
- school fee refund rules AC
- byjus refund AC
- ugc fee refund policy

SECONDARY KEYWORDS

- college fee refund application AC
- coaching refund policy AC
- private college fees refund law GSC
- edtech course refund
- study abroad consultant refund
- hostel caution money refund

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- byju's not refunding money AC
- edtech course cancelled but loan emi continuing
- coaching centre 'no refund' clause legal?
- college refusing to return original documents
- school charging fees after TC
- study abroad agent visa rejected refund

HINDI / HINGLISH

- college fees wapas kaise le HI
- coaching fees refund niyam HI

COMPETITOR GAP

Results are institution policy pages and letter-format sites. No one combines the 2024 coaching guidelines and the UGC notice with a demand-notice route, and ed-tech loan cancellation is almost uncovered.

AI-CITATION ANGLE

Rule tables (coaching / UGC / state) and a template plus notice ladder.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
`/law/coaching-centre-refund-guidelines-2024`	Coaching guidelines: pro-rata refund in 10 days†	P0	NEW

8.14 Cars, two-wheelers & EVs

GSC evidence (shared cluster "auto"): 14 queries · 146 impressions since May · Current hub: /legal-notice-to-car-dealer-delayed-delivery-defective-vehicle (35 clicks in 28 days)

WHAT THE PLATFORM DOES

Notices to dealer or OEM for delivery delays, booking refunds, defective vehicles, overcharging, EV service failures, used-car platform disputes.

LEGAL BASIS

CPA 2019 (product liability ch. VI); Sale of Goods Act; Motor Vehicles Act (registration / insurance obligations of dealer); state transport rules on dealer charges (handling charges).

> **2026 trend hook:** GSC shows 'vehicle not delivered' (63 impressions, position 6) and 'can i refuse new car delivery in india' (44 impressions, position 10). EV service backlogs are a persistent consumer issue.

PRIMARY KEYWORDS

- car delivery delay compensation AC GSC
- car dealer refund
- defective car replacement india
- bike booking amount refund AC
- vehicle not delivered GSC

SECONDARY KEYWORDS

- can i refuse new car delivery GSC
- bike booking cancellation letter AC
- ev scooter service delay
- dealer handling charges illegal
- used car dealer fraud refund

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- pdi defects found — refuse delivery?
- dealer forcing accessories / insurance
- royal enfield booking cancellation refund AC
- ev battery failure under warranty refused
- cars24 / spinny refund dispute
- service centre overcharged / unnecessary repair

HINDI / HINGLISH

- car delivery late compensation HI
- bike booking cancel refund HI

COMPETITOR GAP

Autocomplete is US-centric ('lemon law'). Indian consumer-commission orders on delivery delay and defects are uncollected in one place.

AI-CITATION ANGLE

A PDI checklist plus a 'when you can refuse delivery' rule table.

NEW UNIQUE URLS

URL	Purpose	Priority	Status
`/refuse-new-car-delivery-pdi-defects`	Can you refuse delivery? PDI defects & rights	P1	NEW — GSC
`/bike-scooter-booking-refund-legal-notice`	Two-wheeler / EV booking refund	P1	NEW — AC
`/ev-service-delay-battery-warranty-legal-notice`	EV service delay / battery warranty refusal	P2	NEW
`/dealer-forced-accessories-insurance-handling-charges`	Dealer overcharging & forced add-ons	P2	NEW
`/used-car-platform-refund-dispute`	Used-car platform refund disputes	P2	NEW
`/templates/car-delivery-delay-complaint-letter`	Delivery delay complaint letter	P2	NEW — AC

8.15 Home, health & everyday services

GSC evidence (shared cluster "services"): 45 queries · 254 impressions since May · Current hub: /legal-notice-to-interior-designer-contractor-refund (29 clicks)

WHAT THE PLATFORM DOES

Notices for undelivered or defective services: interior work, furniture, packers & movers, couriers, hospitals (overbilling), clinics, telecom/broadband, subscriptions, appliances, solar installers, weddings and events.

LEGAL BASIS

CPA 2019 deficiency of service; Carriage by Road Act 2007 (couriers / movers liability); Clinical Establishments rules (rate display)†; TRAI consumer regulations; Legal Metrology (MRP).

> **2026 trend hook:** GSC shows 'can we file a case against interior who didn't complete work but collected the entire amount and absconded' (61 impressions) and a furniture-damage question at position 1. PM Surya Ghar rooftop-solar vendor disputes are an emerging niche.

PRIMARY KEYWORDS

- interior designer not completing work legal action GSC
- packers and movers damage claim
- courier lost parcel compensation AC
- hospital overcharge complaint AC
- wedding venue refund AC

SECONDARY KEYWORDS

- furniture not delivered refund AC GSC
- delhivery lost parcel AC
- blue dart parcel lost AC
- jio refund AC
- airtel refund complaint AC
- broadband refund
- wrong electricity bill complaint AC
- event ticket refund AC
- appliance warranty replacement refused
- solar installation not done refund

NICHE LONG-TAIL QUERIES TO ANSWER (IN-PAGE FAQS OR DEDICATED PAGES)

- interior contractor absconded after taking full payment GSC
- modular kitchen delivered damaged — refund
- packers and movers lost items claim
- courier liability limited to ₹100 clause — valid?
- hospital billed for unused consumables
- dental implant failed refund
- concert cancelled ticket refund not received
- urban company service damage claim
- rooftop solar subsidy vendor not installing

HINDI / HINGLISH

- courier gum ho gaya compensation HI
- bijli bill galat complaint HI

COMPETITOR GAP

Mostly forum threads and foreign pages. Packers & movers and courier-liability content ignores the Carriage by Road Act and Supreme Court positions on liability caps (Bharathi Knitting).

AI-CITATION ANGLE

Liability tables (courier / mover caps vs consumer law) with cited judgments.

NEW UNIQUE URLS

URL	Purpose	Priority	Status

`/hi/money-recovery-case-kitna-time-lagta-hai`	Devanagari answer to our top Hindi GSC query	P0	NEW — Hindi

Head-term recovery plan. "send legal notice online" → canonical `/send-legal-notice-online-india` (most clicks in its cluster), with /online-legal-notice, /vakil-online, /online-lawyer-to-send-legal-notice and the "without hiring a lawyer" guide merged or 301-ed into it. The page needs a price table, delivery modes (email, WhatsApp, RPAD) with their legal validity, sample notice previews, turnaround, an advocate panel with enrolment numbers, real outcome stats, and a 60-word answer block for "Can I send a legal notice online in India?".

10. Original data assets (the strongest moat)

AI engines and journalists cite numbers that nobody else has. LegalRecovery already holds this data in its case pipeline (dispatch, response, settlement). Publish it anonymised and aggregated, with a methodology section.

URL	Asset	Priority
`/reports/refund-delay-index-india`	Refund Delay Index — median days-to-refund by company, from LegalRecovery case data (quarterly)	P0
`/reports/legal-notice-outcomes-study`	What % of notices settle within 15/30/60 days, by dispute type	P0
`/reports/salary-fnf-dispute-report-2026`	FnF & salary disputes after the Code on Wages — first-year data	P1
`/reports/consumer-commission-awards-tracker`	Monthly tracker of refund/compensation orders vs e-commerce, airlines, banks (with links)	P1

Distribution: a press note to consumer and business journalists (Moneylife, Economic Times Wealth, LiveMint, YourStory); LinkedIn posts by the founder; Reddit (r/india, r/IndianWorkplace, r/LegalAdviceIndia) summaries with charts; quarterly refreshes, so the page earns repeat citations and links.

11. AI crawlability, GEO & AI reach

11.1 Current status

Check	Status	Action
robots.txt allows GPTBot, OAI-SearchBot, ChatGPT-User, ClaudeBot, Claude-SearchBot, PerplexityBot, Google-Extended, Applebot-Extended	✓ Allowed (verified: all return HTTP 200)	Keep. Add Bingbot-friendly IndexNow.

llms.txt	✗ Exists but lists 1 link (non-www)	Rewrite: site summary, 15 vertical hubs, all /law/ pages, tools, templates, reports, pricing, contact. Optional llms-full.txt for the top 30 guides.
Extractable facts (tables, definitions, numbers)	✗ Top page has 0 HTML tables	Every guide gets a "Key facts" table and at least one deadline or amount table.
Entity consistency	✗ Two different author names in one page's schema; no reviewer credentials	One author + one advocate reviewer per page; Organization schema with sameAs (LinkedIn, Google Business Profile, Crunchbase).
Bing / ChatGPT search coverage	Unknown	Verify Bing Webmaster Tools, submit the sitemap, enable IndexNow pings on publish and update.
AI visibility measurement	None	GSC generative-AI report (monthly, manual) + a 50-prompt panel across ChatGPT, Perplexity, Gemini and AI Mode, logged in a sheet.

11.2 Passage-level writing rules (for citation)

- Each H2 is a question users actually ask (from GSC/AC). The first one or two sentences answer it completely in 40–60 words, with the statute section and number. ("Under Section 138 of the NI Act, you must send the demand notice within 30 days of receiving the bank's return memo.")
- Put numbers in tables: deadlines, amounts, interest rates, forum limits, compensation slabs. Show "as of" dates next to anything that changes.
- Name the entities explicitly (e.g. "Consumer Protection (E-Commerce) Rules, 2020, Rule 4(5)"), not "the rules".
- Cite primary sources (gazette, RBI circular, judgment) and reputable reporting (LiveLaw) with outbound links. LLMs prefer pages that cite their own sources.
- Give an honest scope statement ("We cannot recover money from an anonymous fraudster; we pursue the bank's liability when…"). Trustworthiness signals matter for YMYL.
- Each page carries one unique artefact: a case citation with the award amount, a template, a calculator or a statistic from our data.

11.3 Query fan-out checklist (cover these on every hub)

Sub-question type	Example for "meesho refund not received"
Is it normal / how long?	How many days does a Meesho refund take?
Why is it stuck?	Refund successful but not received — UTR/ARN
Who is liable?	Meesho vs seller vs bank / payment gateway
What are my rights?	E-commerce Rules: 48-hour acknowledgement, one-month redress
Steps & deadlines	Day 0 grievance → day 7 NCH → day 15 legal notice → day 30 e-Jagriti
Cost & forum	e-Jagriti fees, district commission
Evidence	Order ID, return proof, chats, bank statement
Outcomes	Cited commission orders with amounts

Template	Grievance email + legal-notice preview
Hindi	Meesho refund nahi aaya kya kare

11.4 Off-site AI reach

- **Reddit & Quora:** genuine, helpful answers from a named advocate account in r/india, r/IndianWorkplace, r/LegalAdviceIndia and r/personalfinanceindia, linking to the relevant hub only when it adds value.
- **YouTube Shorts / Instagram Reels:** "FnF must be paid in 2 days", "Your bank must refund UPI fraud if…". Video transcripts feed AI answers and Google's video results.
- **LinkedIn:** founder and advocate articles on the Code on Wages and MSME ODR (B2B reach).
- **Digital PR:** Refund Delay Index and Notice Outcomes Study, pitched quarterly.
- **Wikipedia-style entity signals:** consistent name, address and description across Google Business Profile, Crunchbase, LinkedIn and JustDial. Use the same one-line description everywhere.

11.5 Schema policy

Allowed: Article, BreadcrumbList, FAQPage (rich results are limited for most sites, but the markup helps parsing), Organization, Person (author/reviewer), WebApplication (tools), DigitalDocument (templates), Dataset (reports), Service (service pages, no self-ratings). **Not allowed:** AggregateRating or Review written about ourselves, HowTo (deprecated), fake dateModified bumps.

12. Page blueprint & quality standard

#	Block	Specification
1	Title / H1	The problem in the searcher's words + outcome + year where useful. "Meesho Refund Not Received? Get It Back Legally (2026 Steps)". Title ≤ 60 characters; meta description ≤ 155 with the deadline or the action.
2	Answer box (40–60 words)	Who is liable, the legal basis, the first step, the time limit.
3	Key facts table	Law · deadline · forum · typical outcome · our price · time to resolution.
4	Step ladder	Dated steps (day 0 / 7 / 15 / 30) with what to send, to whom, and the expected response.
5	Evidence checklist	Bulleted, specific to the dispute.
6	Template / tool embed	Link or embed the /templates/ or /tools/ page.
7	Case law	2–5 orders with forum, year, amount awarded and a source link.
8	FAQs (5–8)	Exact GSC/AC phrasings, each answered in 2–4 sentences.
9	Reviewer box	Advocate name, enrolment no., "legally reviewed on" date; author bio link.
10	CTA	"Send a lawyer-drafted notice for ₹X, delivered in 24h" with WhatsApp and form; trust stats from our own data (no self-star ratings).
11	Related guides	Hub link + 3–5 siblings (law, tool, template, brand).
12	Hindi pair	hreflang link to the /hi/ variant where one exists.

Publish gate (all must be true): unique intent verified against existing URLs · primary sources linked · advocate review completed · one original artefact · answer box + key facts table present · internal links to hub/law/tool/template · no IPC-era references · title/meta under length limits · added to llms.txt (if hub/law/tool) · IndexNow ping.

13. Roadmap, cadence & KPIs

Phase	Scope	Output
Phase 0 Weeks 1–3	Risk removal (templated pages, review schema), technical fixes, consolidation of the top 8 clusters (send-notice-online, recovery-of-money format, FnF, salary, deposit, friend loan, cyber fraud, cheque), llms.txt, Bing/IndexNow, reviewer system, analytics events.	~0 new pages; ~70 URLs merged
Phase 1 Weeks 3–10	All P0 items (46 URLs): 2026 law pages, the core tools, top templates, top brand hubs (Amazon, Flipkart, Meesho, Zepto, MakeMyTrip, IRCTC), Hindi hubs, e-Jagriti guide, pricing page, Refund Delay Index v1.	~5–6 pages/week
Phase 2 Weeks 11–22	P1 items (78 URLs) + remaining consolidation clusters + quarterly data refresh + Reddit/Quora/YouTube programme.	~5–6 pages/week
Phase 3 Weeks 23–32	P2 items (44 URLs), long-tail brand hubs, refreshing every law page on rule changes, second data report, digital-PR push.	~4 pages/week + refreshes

KPIs & targets (to be reset after Phase 0)

KPI	Baseline (Oct 2026)	3-month target	6-month target
Google clicks / 28 days	1,270	2,200	4,000
Site CTR	1.54%	2.0%	2.6%
"send legal notice online" position	24	≤12	≤6
Indexed share of unique (non-templated) URLs	~75% (sample)	90%	95%
AI-citation panel (50 prompts): % citing legalrecovery.in	Not measured	10%	25%
GSC generative-AI impressions (hubs)	Not reviewed	Baseline set	+50% vs baseline
Organic notice purchases / leads	Not tracked	Tracking live + baseline	+60% vs baseline
Referring domains from data assets	—	10	40

Targets assume Phase 0 completes on time and removing the review stars causes only a modest CTR loss. Reassess at week 6 using GSC deltas on consolidated clusters.

Appendix A — All 168 new URLs with uniqueness check

Method: every proposed slug was tokenised (stop-words removed) and compared by Jaccard similarity against all 284 unique non-templated sitemap URLs (the 3,036 templated location pages are excluded because the plan removes them). There are 0 exact matches and 0 internal duplicates. Rows with similarity ≥ 0.5 were reviewed by hand; the verdict column explains why each is a distinct intent.

(127)	consumer court judgments refund · consumer commission orders amazon · consumer court compensation amount · latest consumer court cases

Appendix F2 — Master URL table: build fields (all 168 URLs)

Action types: BUILD_NEW · BUILD_AND_CONSOLIDATE (merge listed URLs, then 308) · UPGRADE_EXISTING (edit the existing page, don't create the URL) · BUILD_SHELL_NEEDS_DATA (reports: never invent data). PDF refs point to the sections the prompt must read. Internal links are the minimum set (first = hub/breadcrumb parent); each set is different per page by design.

ID	URL	Action	Type / archetype	Schema	Words	PDF refs	Internal links (minimum)	Differentiator / competitor gap

Appendix G — Layout archetypes (DOM blueprints)

Each URL is assigned one archetype in F2. The archetype sets the section order, the primary component and the semantic elements, so pages that serve different intents also have structurally different DOM trees. Within a vertical, archetypes rotate and the builder's registry check blocks identical H2 sequences. Shared site chrome (navbar, footer, design tokens) is expected and fine. Uniqueness is about the main content.

B1 — Brand hub — Escalation rail · fits: /legal-notice-to/* brand hubs

1. Hero: one-line problem + 50-word answer box (<p> inside <section aria-label='Quick answer'>)
2. Vertical escalation rail: <ol> of dated steps (Day 0 grievance → Day 7 NCH → Day 15 legal notice → Day 30 e-Jagriti), each step an <li> with <time> and the exact contact/portal
3. Grievance-officer fact sheet as a <dl> (name/designation as published, email, portal, statutory deadline)
4. 'Why the platform is liable' explainer with the E-Commerce Rules / CAR clause quoted in a <blockquote cite>
5. Case-law strip: 2–5 <article> cards (forum, year, amount, link)
6. Evidence checklist <ul> with checkbox styling
7. FAQ (<details>/<summary>)
8. CTA band + related links

DOM signature: Timeline-dominant; uses <ol>, <time>, <dl>, <blockquote>, <details>. No comparison table at the top. Hero is text-only (no illustration).

B2 — Brand hub — Dossier with sticky fact panel · fits: /legal-notice-to/* brand hubs

1. Two-column layout: main column + sticky right <aside> 'Fact panel' (deadline, forum, typical outcome, our price)
2. Main: 'What usually goes wrong with <Brand>' — 3–5 problem <article>s each with its own mini-remedy
3. Comparison <table>: problem type × who is liable (platform/seller/bank) × deadline × first action
4. Inline SVG flow diagram of refund money-flow (customer → gateway → platform → seller)
5. Commission orders as a <table> (not cards)
6. FAQ as a plain <h3>/<p> Q&A list (no accordion)
7. CTA inside the aside + end-of-page

DOM signature: Grid with sticky <aside>; table-heavy; SVG <figure> with <figcaption>. No step timeline <ol> at the top.

B3 — Brand hub — Problem picker (tabs) · fits: /legal-notice-to/* brand hubs

1. Hero with a problem-picker: tab list (role='tablist') — 'Refund missing', 'Wrong/damaged item', 'Return rejected', 'Seller dispute' (server-render all panels; tabs are progressive enhancement)
2. Each tab panel: cause → legal basis → 3-step fix → template link
3. Shared section: 'If nothing works in 30 days' — legal notice + e-Jagriti path as a short numbered list
4. Real-order highlights in a <figure> pull-quote style (with source link)
5. FAQ accordion
6. Related brands & guides grid

DOM signature: Tabs/ARIA tablist; content split into 3–5 panels; each panel has its own H3s. Requires a small client island only for tab switching.

B4 — Brand hub — Case-law first · fits: /legal-notice-to/* brand hubs

1. Hero headline + 'What consumer courts have ordered <Brand> to pay' summary stat line (from verified orders only)
2. Order digest: 3–6 orders, each an <article> with facts → holding → amount → 'what it means for you'
3. Pattern analysis: what won those cases (evidence, timing) as a
4. Your playbook: 5-step <ol> derived from the cases
5. Fact <table> of deadlines
6. FAQ <details>
7. CTA

DOM signature: Article-list heavy, long-form editorial; citations block at the end (<ol class='sources'>). Use only if ≥3 verifiable orders exist; otherwise fall back to B1 and note it in the report.

B5 — Brand hub — Conversational Q&A · fits: /legal-notice-to/* brand hubs

1. Hero question in the user's words as the H1 subtitle
2. Chat-style Q&A sequence: 8–12 <section>s, each H2 a real query (from GSC/AC), first paragraph = complete answer
3. Inline 'deadline calculator lite' (date input → day 15 / day 30 dates) as a client island
4. Mini fact <table>
5. Sources list
6. CTA

DOM signature: Many short H2 sections; FAQPage schema derived from the H2 Q&As; no accordion; one small client island.

G1 — Guide — Decision tree · fits: problem guides

1. Answer box
2. Interactive-or-static decision tree: nested <ul> or SVG flowchart ('Do you have written proof?' → routes)
3. Route sections: one H2 per route with deadline, cost, forum
4. Worked example with specific numbers (₹ amounts, dates)
5. Evidence checklist
6. FAQ
7. CTA

DOM signature: Tree/flowchart is the centrepiece (<figure> with SVG + text fallback list). No timeline at the top.

G2 — Guide — Scenario cards · fits: problem guides

1. Short intro + answer box
2. Scenario grid: 3–6 <article> cards ('You paid in cash', 'You have WhatsApp chats', …), each with outcome odds and a link to the next step
3. Legal basis section with quoted statute
4. Step-by-step <ol> for the most common scenario
5. Mistakes to avoid (<ul> with ✕ styling)
6. FAQ
7. CTA

DOM signature: Card grid near the top; mistakes list; statute <blockquote>.

G3 — Guide — Checklist wizard · fits: problem guides

1. Answer box
2. Pre-flight checklist (checkbox list; progress indicator as a client island, content server-rendered)
3. Document/evidence matrix <table> (document × why it matters × where to get it)
4. Process timeline <ol> with <time>
5. Template download block
6. FAQ
7. CTA

DOM signature: Checklist + matrix table; progress UI is the only client JS.

G4 — Guide — Comparison matrix · fits: guides comparing routes/forums

1. Answer box
2. Big comparison <table> of routes (notice vs consumer court vs civil suit vs police/regulator): cost, time, proof needed, success factors
3. 'Which one is right for you' — 3 short persona paragraphs
4. Deep-dive H2 per route
5. Fact sources
6. FAQ
7. CTA

DOM signature: Table is the hero element (first screen); persona section; minimal lists.

G5 — Guide — Myth vs fact · fits: misconception-heavy topics

1. Answer box
2. Myth/Fact pairs: 5–8 two-column rows (or <table>), each fact citing a section or judgment
3. What actually works: numbered steps
4. Real example
5. FAQ
6. CTA

DOM signature: Two-column myth/fact rows; strong citation density.

G6 — Guide — Long-form explainer with TOC · fits: deep explainers

1. Answer box
2. Sticky TableOfContents (existing component, vertical)
3. 6–9 H2 sections with H3s; at least one data <table> and one SVG <figure>
4. Key takeaways box (<aside>)
5. FAQ
6. CTA

DOM signature: Classic editorial structure; uses the existing TableOfContents component; ≤ 1 accordion.

L1 — Law page — Annotated statute · fits: /law/*

1. Plain-English summary (60 words) + 'In force since' badge with <time>
2. Clause-by-clause annotation: each clause in a <blockquote cite> followed by 'What it means' + 'Example'
3. Who is covered / not covered (<table>)
4. Deadlines & penalties (<table>)
5. How to enforce it — numbered steps
6. Primary sources (<ol class='sources'> with gazette/circular links)
7. FAQ
8. CTA

DOM signature: Blockquote-annotation pairs; two tables; sources list mandatory.

L2 — Law page — Before vs after · fits: /law/* pages about a change

1. Summary + effective date
2. Before/after comparison <table> (old rule vs new rule vs what it means for you)
3. Timeline of the change (<ol> with <time>: draft → notification → effective)
4. Open questions / grey areas (honest, with † items flagged)
5. How to use the new rule today — steps
6. Sources
7. FAQ
8. CTA

DOM signature: Comparison table first; change timeline; 'grey areas' section.

L3 — Law page — Q&A from the rulebook · fits: /law/* procedural rules

1. Summary
2. 10–14 H2 questions answered directly from the rule (each answer cites rule/section)
3. Eligibility checker (yes/no list, static)
4. Process diagram (SVG)
5. Sources
6. CTA

DOM signature: Question-H2 structure; SVG process diagram; no tables above the fold.

T1 — Tool — Split calculator · fits: /tools/*

1. H1 + 1-sentence purpose
2. Two-pane calculator: inputs left (<form> with <label>s), live results right (<output>), client island
3. 'How this is calculated' — formula in words + legal basis + worked example (server-rendered)
4. Assumptions & limits (<ul>)
5. What to do with the result (links to template + notice)
6. FAQ
7. CTA

DOM signature: <form>/<output> calculator; explanatory text fully server-rendered so crawlers see it; WebApplication schema.

T2 — Tool — Step wizard · fits: /tools/*

1. H1 + purpose
2. Stepper (Step 1 dates → Step 2 amounts → Step 3 result) with a results summary card, client island
3. Result interpretation table (result range → meaning → next action)
4. Method & legal basis
5. Edge cases (<details>)
6. CTA

DOM signature: Multi-step form with aria-current steps; results card; edge-case accordion.

P1 — Template — Letter workspace · fits: /templates/*

1. H1 + when to use this letter
2. Fill-in fields (name, dates, amounts) that live-update a letter preview (client island); preview rendered as an <article> with real letter structure
3. Copy / Download .doc / Print buttons
4. Clause-by-clause notes: why each paragraph is there
5. 'If they ignore it' — next-step ladder linking to the legal notice
6. FAQ
7. CTA

DOM signature: Form + live <article> preview; downloadable; clause notes as <dl>.

P2 — Template — Tone variants · fits: /templates/*

1. H1 + situation
2. Three variants as tabs or stacked sections: Polite reminder / Firm demand / Final notice before legal action (each a complete letter in <pre> or <article>)
3. Choosing the right tone (<table>: situation × variant)
4. Subject-line options list
5. Sending tips (email vs registered post vs WhatsApp, legal validity)
6. CTA

DOM signature: Three full letters; tone table; no live-fill form.

P3 — Template — Annotated sample · fits: /templates/*

1. H1 + one-line use case
2. Side-by-side: sample document (left) with numbered margin annotations (right) — footnote markers
3. Mandatory vs optional elements (<table>)
4. Common mistakes that weaken it
5. Hindi/English versions toggle (if relevant)
6. CTA

DOM signature: Two-column annotated layout with footnote markers; mistakes list.

H1 — Hindi — Story-led guide · fits: /hi/*

1. सीधा जवाब (answer box, Devanagari)
2. एक उदाहरण कहानी (worked example with names, dates, amounts)
3. कानूनी आधार — धाराएँ (with English section names in brackets)
4. चरण-दर-चरण प्रक्रिया (<ol>)
5. सबूत सूची
6. अक्सर पूछे जाने वाले सवाल
7. CTA (Hindi)

DOM signature: Story section first; lang='hi' on <html>/<main>; native Hindi writing (not machine translation); hreflang alternates.

H2 — Hindi — Q&A table guide · fits: /hi/*

1. सीधा जवाब
2. समय सीमा तालिका (<table>)
3. सवाल-जवाब H2 sections (8–10)
4. नोटिस भेजने की प्रक्रिया (SVG/numbered)
5. CTA (Hindi)

DOM signature: Table + Q&A; lang='hi'; hreflang alternates.

R1 — Report — Data study · fits: /reports/*

1. Headline finding + 3 key stats
2. Methodology (sample size, period, definitions, exclusions)
3. Charts (SVG, server-rendered, with data tables as accessible fallback)
4. Findings by segment
5. Download CSV + citation box ('Cite this report')
6. Press contact
7. Dataset schema

DOM signature: Charts + tables; Dataset JSON-LD; requires real data file — never invent numbers.

R2 — Report — Running tracker · fits: /reports/* trackers

1. What this tracker is + update cadence
2. Filterable <table> of entries (month, forum, company, amount, link) — filter as client island, table server-rendered
3. Monthly highlights
4. Methodology
5. Subscribe/cite box

DOM signature: Large sortable table; dated update log; requires a data file.

Appendix H — Tool & template specifications

Tools (formulas & rules)

URL	Specification
/tools/full-and-final-settlement-calculator	Inputs: monthly gross, basic+DA, last working day, unpaid days, leave balance (days), notice served/shortfall days, years of service, bonus/incentive due, deductions claimed. Lines: unpaid salary = gross/days-in-month × unpaid days; leave encashment = (basic+DA)/26 × leave days (state/company policy — make divisor editable); notice recovery = per-day rate × shortfall (basic or gross toggle — link to notice-period tool); gratuity via the gratuity formula if eligible. Output: itemised table + 'due within 2 working days of exit under s.17(2) Code on Wages†'.
/tools/gratuity-calculator	Gratuity = last drawn (basic + DA) × 15/26 × completed years (service ≥ 6 months in the final year rounds up). Eligibility: 5 years continuous service (exceptions: death/disablement); fixed-term employees eligible pro-rata after 1 year under the Code on Social Security†. Show statutory ceiling as an editable 'as of' value (verify current ceiling). Payment due within 30 days of becoming payable; interest on delay.
/tools/notice-period-recovery-calculator	Inputs: notice period required, days served, monthly basic, monthly gross, contract clause (basic/gross/unspecified). Output: recovery on basic vs gross, flag when employer's deduction exceeds the contract or is applied to statutory dues; cite Contract Act s.74 (reasonable compensation).
/tools/cheque-bounce-deadline-calculator	Inputs: cheque date, presentation date, date of receipt of return memo, date notice delivered (optional). Rules: cheque validity 3 months from its date; demand notice within 30 days of receiving information of dishonour (s.138(b)); drawer gets 15 days from receipt of notice (s.138(c)); complaint within 1 month after the 15-day period expires (s.142(1)(b)); delay condonable with sufficient cause. Output: dated timeline + warnings if any deadline is past.
/tools/msme-delayed-payment-interest-calculator	Inputs: invoice amount, invoice/acceptance date, agreed credit days (cap 45), payment date (or today), RBI bank rate (editable, show 'as of' and link to RBI). Interest = compound with monthly rests at 3 × bank rate from the appointed day (s.16 MSMED Act). Output: month-by-month table, total interest, downloadable CSV, 43B(h) note for buyers.
/tools/rera-refund-interest-calculator	Inputs: amounts paid with dates (multiple rows), refund date, interest rate (default = SBI highest MCLR + 2% per state rules — editable with 'as of'). Interest computed per payment from its date to refund date (simple interest unless state rule says otherwise). Output: per-instalment table and total.
/tools/consumer-commission-fee-jurisdiction-calculator	Input: consideration paid (value of goods/services). Jurisdiction: District ≤ ₹50 lakh; State > ₹50 lakh to ≤ ₹2 crore; National > ₹2 crore (2021 notification). Fee slabs per Consumer Protection (Consumer Commission Procedure) Regulations 2020† — encode in src/data with source link; verify before publishing (e.g., nil up to ₹5 lakh).
/tools/money-suit-court-fee-calculator	State-wise ad-valorem court-fee schedules differ. Implement only for states whose schedule you can verify from an official source (start with Delhi, Maharashtra, Karnataka, Uttar Pradesh, Haryana, Tamil Nadu); store schedules in src/data/court-fees.ts with source URL + 'as of'; other states show 'verify with court' message. Never guess a slab.
/tools/limitation-period-calculator	Claim types → Limitation Act articles: money lent (Art. 19/21, 3 yrs from loan/demand), goods sold (Art. 14), work done (Art. 18), promissory note (Art. 34/35), general (Art. 113); consumer complaint 2 yrs (s.69 CPA); cheque complaint per s.142. Extensions: written acknowledgment (s.18) and part-payment (s.19) restart the clock. Output: expiry date + extension explanation + 'consult a lawyer if within 60 days of expiry'.

Templates

> All /templates/* pages: original wording written for this page (do not copy any existing site page or competitor template); include placeholders in [SQUARE BRACKETS]; provide Copy, Download .doc (HTML-blob Word file) and Print; add a one-line legal-validity note on sending mode (email/WhatsApp/RPAD); never include an advocate's name or enrolment number in the template body; end with the escalation link to the matching legal-notice service page.

Rates and limits that change (RBI bank rate, MCLR, gratuity ceiling, consumer-commission fee slabs, court-fee schedules) must be editable, labelled "as of", and linked to the official source. Verify every † value before publishing.

LegalRecovery.in — Page Builder Prompt (Antigravity · Gemini 3.8 Flash)

> **How the developer uses this:** paste this entire prompt into Antigravity once per page and replace the last line with the URL to build, e.g. `TARGET_URL: /legal-notice-to/meesho`. Nothing else is needed. The agent must find every other detail itself.

---

0. Role

You are a senior Next.js engineer **and** an Indian consumer/recovery-law content specialist building one page for **legalrecovery.in**, a legal-notice platform. You will build exactly one URL per run, completely, to production quality: content, code, schema, internal links, sitemap entry and verification. The topic is legal (YMYL), so accuracy beats speed. Never invent facts, cases, statistics, reviewers, reviews or quotes.

1. Sources of truth (read in this order)

1. **The master plan PDF:** `docs/seo-plan/LegalRecovery_SEO_AI_Master_Plan_Oct2026.pdf`
2. **Its machine-readable mirror:** `docs/seo-plan/seo-plan-data.json`. Same content as the PDF; use it when the PDF is hard to parse. If the two ever disagree, the PDF wins. Mention the disagreement in your final report.
3. **The repository itself.** Read `AGENTS.md`: this project runs **Next.js 16**, whose APIs differ from your training data. Before writing code, read the relevant guides in `node_modules/next/dist/docs/` (App Router, Metadata, `generateMetadata`, Server/Client Components, `sitemap`, redirects) and follow any deprecation notices.

2. Find everything about TARGET_URL (mandatory lookup)

Do every step and write the findings into a scratch note before coding:

Step	Where	What to extract
2.1	**PDF Appendix F1 / F2** (Master URL Table) or `rows[]` in the JSON, matched on `url`	ID (LR-###), priority, **action**, page type, **archetype**, primary keyword, **meta title**, **H1**, **meta description**, secondary keywords, differentiator / competitor gap, schema, word target, PDF section refs, internal links, hreflang pair, redirects, upgrade target
2.2	The vertical section in the row's `section` field (e.g. **§8.4**). JSON: `verticals["§8.4"]`	What the platform does, legal basis, 2026 trend hook, current hub, primary/secondary/long-tail/Hinglish keywords, competitor gap, AI-citation angle
2.3	**§4** (2026 legal changes)	Every change relevant to this URL, with its status and † flags
2.4	**§11** (AI crawlability & GEO) and **§12** (page blueprint & publish gate)	Writing rules, fan-out checklist, schema policy, publish gate
2.5	**Appendix G**, the row's archetype code (e.g. G3, B2, L1). JSON: `archetypes[code]`	Section order and DOM characteristics you must follow
2.6	**Appendix H** (tools & templates)	Exact formulas/rules if page type is `tool`; template rules if `template`
2.7	**Appendix C** (autocomplete bank) + **Appendix D** (GSC questions & Hindi queries)	Every query that shares 2+ meaningful words with the primary/secondary keywords. These become H2/H3s and FAQ questions in the users' own wording
2.8	**Appendix B** (consolidation map), only if action is `BUILD_AND_CONSOLIDATE` or `UPGRADE_EXISTING`	Which existing URLs merge into this one
2.9	**§5** (competitors)	What competitors do on this topic, so you deliberately do better

If TARGET_URL is **not** in the master table: stop. Report "URL not in plan" and the closest row(s). Do not build anything.

3. Action types (from the row's `action` field)

- **BUILD_NEW:** create the route.
- **BUILD_AND_CONSOLIDATE:** create the route. Read each listed old URL (in the repo, or the live site for `/blog/*` posts stored in the database) and fold in any genuinely useful, still-accurate content in rewritten form. Add permanent (308) redirects old → new in `next.config.ts` `redirects()`. List them in your report for the developer to confirm before deploy.
- **UPGRADE_EXISTING:** do **not** create TARGET_URL. Edit the named existing page to meet this row's spec. Keep its URL and its best-performing content; restructure it to the archetype.
- **BUILD_SHELL_NEEDS_DATA (reports):** build the page and a typed data loader reading `src/data/reports/<slug>.json`. If that file doesn't exist, create the page with clearly marked empty-state UI, **stop**, and ask the developer for the dataset. Never fabricate a

single number.
- **…+ hreflang pair:** add reciprocal `alternates.languages` (`hi-IN` ↔ `en-IN`) on **both** pages.

4. Pre-flight checks (repo)

1. Confirm `src/app/<TARGET_URL path>/` doesn't already exist, and that no redirect in `next.config.ts` already uses this path. If either exists, stop and report.
2. Read 2–3 existing pages to learn conventions: `src/app/legal-notice-for-full-and-final-settlement-delay/`, `src/app/recovery/fnf-settlement/`, plus shared components in `src/components/` (`Breadcrumbs`, `TableOfContents`, `FAQSection`, `PaymentModal`, `RecoveryForm`, `RelatedRecoveryGuides`), `src/lib/site.ts` (`SITE_URL`), `src/app/sitemap.ts`, `src/app/globals.css` (Tailwind v4 design tokens).
3. **Do not copy the anti-patterns in existing pages:** no `reviews` arrays, no `Review`/`AggregateRating` JSON-LD, no testimonials you can't source, no FAQs off-topic for this page, no outdated law (Payment of Wages Act is subsumed by the Code on Wages; IPC 420/406 → BNS 318/316; e-Daakhil → e-Jagriti; "₹1 crore district limit" → ₹50 lakh).
4. Read `src/data/seo-build-registry.json` (create it as `[]` if absent). It lists every page already built under this plan, with its archetype, H2 sequence, component list and text fingerprint. You need it for §6.

5. Research & verification

- Every fact marked **†** in the PDF, and every statute section, deadline, amount, fee or rate you state, must be verified against a **primary source** (gazette/egazette.gov.in, RBI circular, DGCA CAR, IRDAI circular, India Code, Supreme Court/High Court judgment, official portal) or authoritative reporting (LiveLaw, Bar & Bench, SCC Online). Use web search.
- Keep a `sources` list (title, URL, date accessed). Show primary sources on the page in a "Sources & legal references" block.
- Case law: cite only orders/judgments you actually found, with forum, year, parties (as reported), amount, and a link. If you can't verify at least 2 for a page that needs case law, use fewer and say so in the report. Never pad.
- Where sources conflict, state the conservative position on the page and add a short "as of <month year>" note. Flag it in the report.

6. Uniqueness: how this page must differ (anti-template, anti-duplicate)

Principle: Google does not penalise a shared header, footer or design system. It devalues pages whose **main content** is templated, thin, swapped-variable or near-duplicate. So uniqueness must be real: different structure **because** the intent differs, and different words **because** the facts differ. Do all of the following:

1. **Archetype-driven structure.** Build the section order, primary components and semantic elements exactly as Appendix G specifies for this row's archetype. The archetype decides the DOM skeleton. For example, B1 is `<ol>`-timeline-led, B2 is a sticky `<aside>` plus tables, B3 uses ARIA tabs, G4 puts a comparison `<table>` first, L1 pairs blockquotes with annotations, P1 is a live-fill letter `<form>` plus `<article>` preview.
2. **No shared page template.** Do not create or reuse a generic "ArticlePage" or "BrandHubTemplate" component that renders many URLs from props. Do not use a dynamic `[slug]` route for these pages. Each URL gets its own folder with its own composition. Allowed shared parts: Navbar, Footer, Breadcrumbs, PaymentModal, RecoveryForm, low-level UI primitives (buttons, accordion) and design tokens.
3. **Registry diff (hard rule).** Before writing, compare your planned **H2 sequence** and **component list** with every registry entry:
   - No existing page may share your exact H2 sequence.
   - Your H2 set must overlap < 40% with any sibling in the same vertical (`section`).
   - The first three main-content blocks must not match, in type and order, any page built in the same vertical.

If any check fails, restructure within the archetype (reorder optional blocks, change the visual for the facts, split/merge sections) until it passes.

1. **Fresh copy only.** Write every sentence for this page. No paragraph longer than 20 words may appear on any other page of the site. No variable-swapped sentences ("If <Brand> hasn't refunded you…" reused with another brand). No stock openers. Banned: "In today's digital age", "navigating the complexities", "it's important to note", "look no further", "in conclusion", "comprehensive guide", "delve", "unlock", "seamless".
2. **Page-specific artefacts (at least four of these, matched to the archetype):**
   - an inline **SVG diagram** drawn for this process (money flow, decision tree, timeline). Hand-authored, not a generic icon
   - a **facts table** whose rows only make sense for this URL (deadlines, amounts, forums, clauses)
   - a **worked example** with concrete ₹ amounts, dates and parties (clearly labelled as illustrative)
   - verified **case citations** with award amounts
   - an embedded **tool or template** (yours or a sibling's from the master table)
   - a **checklist** specific to this dispute's evidence

3. **Unique FAQ set.** 5–8 questions taken from this row's secondary keywords, the vertical's long-tail list, and the matching Appendix C/D queries. Check the registry: no question string may repeat across pages. Each answer: 2–4 sentences, self-contained, citing a section or rule where relevant.
4. **Unique internal-link set.** Link to every URL in the row's `internal_links` (skip any that doesn't exist yet and note it). Add 2–4 further contextual links that fit the text. Write each anchor descriptively (e.g. "FnF within 2 working days under s.17(2)"), and don't reuse identical anchor text from other pages for the same target.
5. **Unique metadata.** Use the row's meta title, H1 and meta description verbatim, unless they exceed limits (title ≤ 60 characters, description ≤ 155) or contain a fact your verification disproved. If so, adjust minimally and report it. `og:title`/`og:description` should be written fresh, not copies.
6. **Varied rhythm.** Let the content set the number of H2s (archetype range), paragraph lengths, list vs table vs prose ratio, and CTA placement. Don't force the same count on every page.
7. **Imagery.** If you add images, they must be original (SVG you draw, or an asset the developer supplies), with descriptive `alt` text. No stock photos reused across pages.
8. **Self-check script.** Create once, then reuse `scripts/seo-uniqueness-check.mjs`. It should:
   - fetch rendered HTML for TARGET_URL and every registry URL from the local dev server
   - extract `<main>` text
   - compute 5-word shingle Jaccard similarity
   - fail if similarity to any page is ≥ 0.20
   - fail if the H2 sequence matches any page exactly

Run it, and fix the page until it passes.

7. Content requirements

- **Length:** the row's `word_target` (main content only). Depth comes from facts, steps, examples and citations, never padding.
- **Answer box first:** 40–60 words directly under the H1 that fully answer the primary query (who is liable, legal basis with section number, first step, time limit).
- **Every H2 is a real user question or task** (from 2.2/2.7). Its first 1–2 sentences answer it completely (passage-level citability for AI Overviews, ChatGPT, Perplexity).
- **Key facts table** near the top (law · deadline · forum · typical outcome · cost/our price).
- **Honest scope:** say what LegalRecovery can and cannot do for this problem (e.g., "we pursue the bank's liability; we can't trace an anonymous fraudster").
- **CTA:** connect to the legal-notice product (PaymentModal / RecoveryForm, following existing patterns). Mention price only by reading it from `src/lib/funnel-config.ts` (`basePricePerOpposition`); never hard-code a different number. No fake urgency, counters or scarcity.
- **Reviewer box:** "Legally reviewed by <name>, Advocate, Enrolment No. <no.>, on <date>". Take the reviewer only from `src/data/reviewers.ts`. If that file or a reviewer is missing, render no reviewer box, add a `TODO(reviewer)` comment, and flag it. Never invent a person. The author shown must be a single consistent entity (the site's existing author profile), not two different names.
- **Dates:** show "Last updated" with the real build date. Use `datePublished` = first publish and `dateModified` = real modification date. No fake freshness.
- **Hindi pages (under `/hi/`):** write natively in Devanagari (not machine-translated), set `lang="hi"` on the main content wrapper, give legal section names in English in brackets, and add hreflang alternates.
- **Tools:** implement exactly the Appendix H rules. Put all explanatory text, formulas and worked examples in server-rendered HTML; only the interactive calculator is a client island. Make editable any rate that changes over time (RBI bank rate, MCLR, gratuity ceiling), with an "as of" label and a source link.
- **Templates:** follow the template rules in Appendix H. Original wording; placeholders in [BRACKETS]; Copy / Download .doc / Print.

8. Engineering requirements

- **Files:** `src/app/<path>/page.tsx` must be a **Server Component**. It exports `metadata` (or `generateMetadata` per the Next 16 docs) with `title`, `description`, `alternates.canonical` = `${SITE_URL}<TARGET_URL>`, `openGraph` (type `article`), and `robots` index/follow. Put content sections as server components in the same folder (e.g., `sections/*.tsx`). Client components (`'use client'`) only for interactive islands (tabs, calculator, letter form, accordion). Keep them small. The full text must be present in the initial HTML.
- **JSON-LD:** render server-side as `<script type="application/ld+json">`. Use the row's `schema` types. Article: `headline` = H1, `author` (existing author profile URL), `publisher` → `${SITE_URL}/#organization`, `datePublished`, `dateModified`, `inLanguage`, `about`, and `citation` (primary-source URLs). BreadcrumbList must match the visible breadcrumbs. FAQPage must match the visible FAQs exactly. Tools: WebApplication. Templates: add DigitalDocument. Reports: Dataset. **Never** Review, AggregateRating, or HowTo.
- **Breadcrumbs:** Home › vertical hub (the row's first internal link, or the relevant `/services/*` page) › page.

- **Sitemap:** add the route to `STATIC_ROUTES` in `src/app/sitemap.ts` with sensible `changeFrequency`/`priority`. Its lastModified must be a real date, not `new Date()`.
- **Related guides:** register the page in the correct cluster in `src/components/RelatedRecoveryGuides.tsx` (add a new item with a fresh title and description). Extend `detectCluster` if its path wouldn't match.
- **llms.txt:** if page type is `law`, `tool`, `report`, or a brand hub, append a one-line entry (absolute `https://www.legalrecovery.in` URL + 12–20 word description) to the static file `public/llms.txt`, under the matching section heading (create the heading if absent).
- **Redirects:** only those listed in the row (308/permanent).
- **Styling:** Tailwind v4 with the existing tokens in `globals.css`. Mobile-first; no horizontal scroll at 360px. Images/SVG get explicit width/height (no CLS). Use semantic HTML (`main`, `article`, `section` with `aria-labelledby`, `nav`, `aside`, `table` with `<caption>`/`<th scope>`).
- **Accessibility:** one H1, logical H2→H3 order, labelled form fields, keyboard-operable tabs/accordions, contrast AA.
- **Performance:** no new heavy dependencies. A calculator or chart must not ship more than ~30 KB of extra JS. No client-side fetching of the main content.
- **Registry:** append to `src/data/seo-build-registry.json`: `{ id, url, archetype, h2s:[…], components:[…], faqQuestions:[…], wordCount, artefacts:[…], sources:[…], builtAt }`.
- Don't modify unrelated files. Don't commit or push unless the developer asks.

9. Verification (all must pass before you report done)

1. `npx tsc --noEmit` and the project lint pass. `next build` succeeds (or, if it's too slow, at least the route compiles in `next dev` without errors).
2. Fetch the page from the dev server and assert:
   - HTTP 200
   - exactly one `<h1>`, equal to the row's H1
   - `<title>` and meta description match and are within length limits
   - canonical correct
   - robots indexable
   - JSON-LD parses, and contains no Review/AggregateRating
   - FAQ schema equals the visible FAQs
   - main text appears in the server HTML (view-source, not only after hydration)
3. Word count (main content) is within the target.
4. Every internal link returns 200 (or is listed as "pending page").
5. `scripts/seo-uniqueness-check.mjs` passes (similarity < 0.20 to all registry pages; H2 sequence unique).
6. Run the §12 publish gate from the PDF line by line.
7. Visual check at 360px and 1280px: no overflow; tabs, calculator and forms work with keyboard only.

10. Final report to the developer (print in chat)

- Row ID, URL, action, archetype used (and why, if you deviated)
- Files created/changed; redirects added (need confirmation); sitemap, registry and llms.txt updates
- H2 outline; FAQ list; artefacts included
- Sources (primary first); † items you verified or couldn't verify (each with a page note)
- Uniqueness-check results (highest similarity and against which URL)
- TODOs: reviewer missing, pending linked pages, data needed (reports), anything you changed from the master table and why

---

TARGET_URL: <paste the URL here, e.g. /legal-notice-to/meesho>
